Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.....	28
Item 3. Quantitative and Qualitative Disclosures About Market Risk.....	44
Item 4. Legal Proceedings.....	45
Item 5. Risk Factors.....	48

References in this report to (1) the terms “we,” “us,” “our,” the “Company,” “Remington Outdoor Company” and “Remington Outdoor” refer to Remington Outdoor Company, Inc. and its subsidiaries on a consolidated basis, (2) the term “FGI Holding” refers to FGI Holding Company, LLC, (3) the term “FGI Opco” refers to FGI Operating Company, LLC, (4) the term “FGI Finance” refers to FGI Finance, Inc., (5) the term “Remington” refers to Remington Arms Company, LLC and its direct and indirect subsidiaries, (6) the term “Outdoor Services” refers to Outdoors Services, LLC, (7) the term “EOTAC” refers to EOTAC, LLC, (8) the term “Mountain Khakis” refers to Mountain Khakis, LLC, (9) the term “AAC” refers to Advanced Armament Corp., LLC, (10) the term “Barnes” refers to Barnes Bullets, LLC, (11) the term “Para” refers to Para USA, LLC, (12) the term “TAPCO” refers to The American Parts Company, Inc., (13) the term “TMRI” refers to TMRI, Inc., (14) the term “Remington UK” refers to Remington Outdoor (UK) Ltd., (15) the term “SMK” refers to Tech Group (UK) Ltd., (16) the term “Storm Lake” refers to Storm Lake, Inc., (17) the term “Great Outdoors” refers to Great Outdoors Holdco, LLC and (18) the terms “2020 Notes,” “Term Loan B,” “ABL,” “ABL Revolver” and “Promissory Note” have the respective meanings given to them in the “Notes to Consolidated Financial Statements – note 7 – Debt.”

FINANCIAL AND OTHER INFORMATION

Unless otherwise indicated, all references to “dollars” and “\$” in this Quarterly Report are to, and all monetary amounts in this Quarterly Report are presented in, U.S. dollars. Unless otherwise indicated, the financial information contained in this Quarterly Report has been prepared in accordance with generally accepted accounting principles in the United States (“GAAP”).

Certain monetary amounts, percentages and other figures included in this Quarterly Report have been subject to rounding adjustments. Accordingly, figures shown as totals in certain tables may not be the arithmetic aggregation of the figures that precede them, and figures expressed as percentages in the text may not total 100% or, as applicable, when aggregated may not be the arithmetic aggregation of the percentages that precede them.

In this Quarterly Report, we refer to and rely on publicly available information regarding our industry and our competitors. Although we believe the information is reliable, we cannot guarantee the accuracy and completeness of the information and have not independently verified it.

FORWARD-LOOKING STATEMENTS

Some of the statements in this Quarterly Report constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements relating to trends in the operations, financial results, business and the products of Remington Outdoor Company, as well as other statements including words such as “anticipate,” “believe,” “plan,” “estimate,” “expect,” “intend” and other similar expressions.

Forward-looking statements are made based upon management's current expectations and beliefs concerning future developments and their potential effects on us. Such forward-looking statements are not guarantees of future performance. The following important factors, and those important factors described elsewhere in our earlier quarterly and annual reports could affect our actual results and could cause such results to differ materially from estimates or expectations reflected in such forward-looking statements.

- We are subject to the effects of general global economic and market conditions. Increases in commodity prices, higher levels of unemployment, higher consumer debt levels, declines in consumer confidence, uncertainty about economic stability and other economic factors that may affect consumer spending or buying habits could adversely affect the demand for products we sell. Persistent economic uncertainty or a deterioration of economic conditions could have a material adverse effect on our business, results of operations and financial condition.
- Our ability to make scheduled payments of principal or interest on, or to refinance our obligations with respect to, our indebtedness, as well as our ability to comply with the

covenants and restrictions contained in the instruments governing such indebtedness, will depend on our future operating performance and cash flow, which are subject to prevailing economic conditions, prevailing interest rate levels, and financial, competitive, business and other factors beyond our control, including the responses of competitors, changes in customer inventory management practices, changes in customer buying patterns, regulatory developments and increased operating costs, all of which could materially adversely affect our business.

- The degree to which we are leveraged could have important consequences, all of which could materially adversely affect our business, including the following: (i) our ability to obtain additional financing for working capital or other purposes in the future may be limited; (ii) a substantial portion of our cash flow from operations is dedicated to the payment of principal and interest on our indebtedness, thereby reducing funds available for operations; (iii) certain of our borrowings are at variable rates of interest, which could cause us to be vulnerable to increases in interest rates; and (iv) we may be more vulnerable to economic downturns and be limited in our ability to withstand competitive pressures.
- The development of rural property in many locations has curtailed or eliminated access to private and public lands previously available for hunting, and the continuation of the development of rural property could materially adversely affect our industry as well as our business and results of operations.
- A portion of our sales are seasonal. As a result of the seasonal nature of our sales, our historical working capital financing needs generally have exceeded cash provided by operations during certain parts of the year. Our ability to meet our debt service and other obligations depends in significant part on customers purchasing our products during the fall hunting season. Notwithstanding our cost containment initiatives and continuing management of costs, a decrease in demand during the fall hunting season for our higher priced, higher margin products would require us to further reduce costs or increase our reliance on borrowings under our credit facility to fund operations. If we are unable to reduce costs or increase our borrowings sufficiently to adjust to such a reduction in demand, our financial condition and results of operations could be adversely affected.
- Lead, copper, steel, brass and zinc prices historically have experienced volatility primarily due to increased global demand and industry supply issues. Furthermore, fuel and energy costs have been volatile over the last number of years, although at a slower rate of increase. We currently purchase copper and lead commodity option and swap contracts to hedge against price fluctuations of anticipated commodity purchases. Due to historical volatility of pricing, there can be no assurance that we will not see further material adverse changes in commodity pricing or energy costs or that we will successfully hedge the prices, and such further changes, were they to occur, could have a material adverse impact on our consolidated financial position, results of operations, or cash flows.
- We utilize numerous raw materials, including steel, zinc, lead, copper, brass, plastics, gunpowder, and wood, as well as manufactured parts, which are purchased from one or a few suppliers. Any disruption in our relationship with these suppliers could increase our cost of operations. Such a disruption may result from or be amplified by the volatility of and uncertainty in the U.S. and global financial markets.
- We face risks related to acquisition, including achieving the intended benefits of our acquisitions, which depends in part on the integration of products and internal operating systems in a timely and efficient manner. Such integration may be unpredictable, and subject to delay because the products and systems typically were developed independently and were designed without regard to such integration. If we cannot successfully integrate such products and internal operating systems on a timely basis, we may lose customers and our business and

results of operations may be harmed. In addition, we could incur impairment charges if an acquired business performs below expectations.

- We face significant domestic and international competition and our competitors vary according to product line. Certain of these competitors are subsidiaries of large corporations with substantially greater financial resources than we have. There can be no assurance that we will continue to compete effectively with all of our present competition, and our ability to so compete could be adversely affected by the degree to which we are leveraged.
- Sales made to Wal-Mart accounted for approximately 10% of our total sales for both of the nine months ended September 28, 2014 and September 29, 2013. Our sales to Wal-Mart are generally not governed by a written long-term contract between the parties. In the event that Wal-Mart were to significantly reduce or terminate its purchases of firearms, ammunition and/or other products from us, our financial condition or results of operations could be adversely affected.
- The manufacture, sale and purchase of firearms and ammunition are subject to extensive governmental regulation on the federal, state and local levels. Changes in regulation could materially adversely affect our business by restricting the types of products we manufacture or sell or by imposing additional costs on us or our customers in connection with the manufacture or sale of our products. Regulatory proposals, even if never enacted, may affect firearms or ammunition sales as a result of consumer perceptions. While we do not believe that existing federal and state legislation relating to the regulation of firearms and ammunition will have a material adverse effect on our sales, no assurance can be given that more restrictive regulations, if proposed or enacted, will not have a material adverse effect on us in the future.
- As a manufacturer of firearms, we were previously named as a defendant, in class action lawsuits by plaintiffs alleging economic harm due to product defect and product liability lawsuits and lawsuits brought by municipalities or organizations challenging manufacturers' distribution practices and alleging that the defendants have failed to include a variety of safety devices in their firearms. Our insurance primarily excludes coverage regarding such claims. In the event that additional such lawsuits are filed, or if certain legal theories advanced by plaintiffs are generally accepted by the courts, our financial condition and results of operations could be adversely affected.
- Unfavorable publicity or public perception of the firearms industry could adversely impact our operating results and reputation.

Any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. Except as required by law, we undertake no obligation to publicly revise our forward-looking statements to reflect events or circumstances that arise after the date of this quarterly report.

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

1. Basis of Presentation

The accompanying unaudited interim condensed and consolidated financial statements include those of Remington Outdoor Company, Inc. (“Remington Outdoor Company,” “Remington Outdoor,” or the “Company”) and its subsidiaries. Remington Outdoor owns 100% of FGI Holding Company, LLC (“FGI Holding”), which in turn owns 100% of FGI Operating Company, LLC (“FGI Opco”). FGI Opco includes the financial results of Remington Arms Company, LLC (“Remington”), Barnes Bullets, LLC (“Barnes”), RA Brands, L.L.C. and Outdoor Services, LLC. FGI Opco also owns 100% of FGI Finance, Inc. (“FGI Finance”). Remington, in turn, owns Advanced Armament Corp., LLC (“AAC”), Para USA, LLC (“Para”), a 99% interest in TMRI, Inc. (“TMRI”), Remington Outdoor (UK) Ltd. (“Remington UK”), Great Outdoors Holdco, LLC (“Great Outdoors”), a 75% interest in Mountain Khakis, LLC (“Mountain Khakis”), and an 84% interest in EOTAC, LLC (“EOTAC”). The accompanying consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

These unaudited interim condensed and consolidated financial statements should be read in conjunction with the audited consolidated financial statements of the Company and its subsidiaries as of and for the year ended December 31, 2013. These unaudited interim statements include all normal recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the periods presented. The results for the three month period may not be indicative of a full year’s result. Certain amounts reported in prior periods have been reclassified to conform to the presentation at September 28, 2014. In the three months ended September 28, 2014, we reclassified \$1.5 of costs from operating expenses to cost of goods sold.

Beginning with the 2013 fiscal year, the Company adopted a calendar year/5-4-4 based fiscal month reporting period. Under the new fiscal cycle, each reporting quarter contains 13 weeks of operations and ends on the last Sunday of the quarter, except for the last quarter which ends on December 31.

Start-Up Costs

The Company considers start-up costs as those one-time costs related to opening a new facility, introducing a new product or service, conducting business in a new territory or conducting business with a new class of customers. These costs include core and support team expenses, consulting, legal expense and security expense. For the three and nine months ended September 28, 2014, the Company incurred start-up costs of \$1.1 and \$1.7, respectively. The start-up costs for each of the three and nine months ended September 28, 2014, are net of \$0.9 of incentives.

Change in Accounting Principle

On January 1, 2014, the Company changed its accounting policy for inventory supplies. Prior to the change, ancillary production items were capitalized when purchased and recognized as components of cost of goods sold when used. In order to streamline the purchasing process, improve production and management efficiencies, and align operational purchases with production, supply inventories are now expensed as a component of cost of goods sold when purchased. Financial information for all periods presented has been retrospectively adjusted to reflect the change in accounting policy. As a result of the accounting change, accumulated deficit as of January 1, 2013 increased from \$(52.6) as originally reported to \$(65.1) and accumulated earnings as of January 1, 2014 decreased from \$3.7 as originally reported to a deficit of \$(10.8).

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

The following table summarizes the effects of the change in accounting principle on the Company's condensed consolidated statement of operations for the three months ended September 29, 2013:

(dollars in millions, except for share data)	As Originally Stated	As Adjusted For Accounting Policy Change
Cost of Goods Sold	\$ 224.9	\$ 225.8
Operating Income	61.6	60.7

Deferred Income Taxes	1.5	0.8
Prepaid Expenses and Other Assets	-	1.7
Net Cash Used in Operating Activities	\$ 84.6	\$ 84.6

2. Business Combinations

As discussed below, the Company has made several acquisitions. These acquisitions are being accounted for as business combinations using the acquisition method, in accordance with Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC"), 805 "Business Combinations" whereby the final purchase price (including assumed liabilities) is allocated and pushed down to the assets acquired based on their estimated fair market values at the date of the acquisition.

Tech Group (UK) Ltd. ("SMK")

On March 28, 2013, the Company, through its subsidiary, Remington UK, acquired certain assets and assumed certain liabilities of SMK for approximately \$6.4 (the "SMK Acquisition") including cash, fees and escrow payments. The SMK Acquisition was funded with cash from operating activities and its operations are consolidated with Remington. Remington UK, based in the United Kingdom, imports and distributes airguns.

Storm Lake, Inc. ("Storm Lake")

On August 16, 2013, the Company, through its subsidiary, TMRI, acquired certain assets and assumed certain liabilities of Storm Lake for approximately \$5.5 (the "Storm Lake Acquisition") including cash, fees and escrow payments. Storm Lake manufactures and markets pistol barrels.

Purchase Price Allocations

The following table summarizes the fair values of the material assets acquired and liabilities assumed in accordance with FASB ASC 805 "Business Combinations":

	SMK ¹	Storm Lake ¹
Accounts Receivable	\$ 0.5	\$ 0.2
Inventory	1.9	0.1
Property, Plant, and Equipment	0.2	1.6
Goodwill	2.3	1.4
Identifiable Intangible Assets	1.7	2.2
Total Assets Acquired	\$ 6.6	\$ 5.5
Current Liabilities	\$ 0.2	\$ -
Total Liabilities Assumed	\$ 0.2	\$ -
Total Assets Acquired Less Liabilities Assumed	6.4	5.5
Estimated Acquisition Cost	\$ 6.4	\$ 5.5

¹ Goodwill is expected to be deductible for tax purposes.

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

Pro Forma Financial Information (Unaudited)

The following unaudited pro forma results of operations assume that the acquisitions occurred as of January 1, 2013, adjusted for the impact of certain items such as the related income tax effects. Income taxes are provided at the estimated statutory rate. This unaudited pro forma information should not be relied upon as necessarily being indicative of historical results that would have been obtained if the acquisitions had actually occurred on that date, nor of the results that may be obtained in the future.

For the Periods Ended	Three Months Ended September 29, 2013	Nine Months Ended September 29, 2013
Net Sales	\$ 347.4	\$ 1,023.6
Operating Profit	60.8	177.8
Net Income Attributable to Controlling Interest	30.7	93.6

3. Fair Value Measurements

ASB ASC 820 “Fair Value Measurements and Disclosures” defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date (that is, an exit price). The exit price is based on the amount that the holder of the asset or liability would receive or need to pay in an actual transaction (or in a hypothetical transaction if an actual transaction does not exist) at the measurement date. In some circumstances, the entry and exit price may be the same; however, they are conceptually different. The accounting standards also establish a three-level hierarchy that prioritizes the inputs used in fair value measurements. The hierarchy consists of three broad levels as follows:

- Level 1 – Quoted market prices in active markets for identical assets or liabilities;
- Level 2 – Observable inputs other than quoted prices within Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data; and
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. These include certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

Recurring Fair Value Measurements

The following table presents assets and liabilities that are measured at fair value on a recurring basis as of September 28, 2014 and the effects of master netting agreements:

	Level 1	Level 2	Level 3	Netting Adjustments	Net Fair Value
Assets:					
Commodity Derivative Contracts	\$ -	\$ 0.1	\$ -	\$ (0.1)	\$ -
Interest Rate Derivative Contracts	-	3.6	-	(2.0)	1.6
Foreign Currency Derivative Contracts	-	0.2	-	-	0.2
Total Assets	\$ -	\$ 3.9	\$ -	\$ (2.1)	\$ 1.8
Liabilities:					
Commodity Derivative Contracts	\$ -	\$ 2.8	\$ -	\$ (0.1)	\$ 2.7
Interest Rate Derivative Contracts	-	2.0	-	(2.0)	-
Total Liabilities	\$ -	\$ 4.8	\$ -	\$ (2.1)	\$ 2.7

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

The following table presents assets and liabilities that are measured at fair value on a recurring basis as of December 31, 2013 and the effects of master netting agreements:

	Level 1	Level 2	Level 3	Netting Adjustments	Net Fair Value
Assets:					
Commodity Derivative Contracts	\$ -	\$ 2.1	\$ -	\$ (2.1)	\$ -
Interest Rate Derivative Contracts	-	3.9	-	(2.4)	1.5
Total Assets	\$ -	\$ 6.0	\$ -	\$ (4.5)	\$ 1.5
Liabilities:					
Commodity Derivative Contracts	\$ -	\$ 2.7	\$ -	\$ (2.1)	\$ 0.6
Interest Rate Derivative Contracts	-	2.4	-	(2.4)	-
Total Liabilities	\$ -	\$ 5.1	\$ -	\$ (4.5)	\$ 0.6

The following table presents assets and liabilities that are measured at fair value on a recurring basis as of September 29, 2013 and the effects of master netting agreements:

	Level 1	Level 2	Level 3	Netting Adjustments	Net Fair Value
Assets:					
Commodity Derivative Contracts	\$ -	\$ 1.6	\$ -	\$ (1.6)	\$ -
Interest Rate Derivative Contracts	-	3.2	-	-	3.2
Total Assets	\$ -	\$ 4.8	\$ -	\$ (1.6)	\$ 3.2
Liabilities:					
Commodity Derivative Contracts	\$ -	\$ 3.8	\$ -	\$ (1.6)	\$ 2.2
Interest Rate Derivative Contracts	-	2.5	-	-	2.5
Foreign Currency Derivative Contracts	-	1.1	-	-	1.1
Total Liabilities	\$ -	\$ 7.4	\$ -	\$ (1.6)	\$ 5.8

The fair values of the Company’s derivative contracts are determined using standard valuation models and observable market inputs which are classified as Level 2 inputs. Inputs used in the valuation models include spot and future prices, interest rates, forward rates, and discount rates that are based on London Inter Bank Offered Rate (“LIBOR”) and U.S. Treasury rates. Refer to note 15.

All of the Company’s derivative instruments are currently subject to master netting agreements which allow gain and loss positions with the same counterparty to be netted when settled. Netting of payments for derivative instruments are allowable if the aggregate amount of transactions payable by one party exceeds the aggregate amount of transactions that are receivable by that party and if paid in the same currency. In the event of default, an early termination penalty payable to the non-defaulting party can be reduced by amounts payable to the defaulting party if the non-defaulting party so chooses. The fair values of all derivative instruments are presented on a net basis on the condensed consolidated balance sheet.

Nonrecurring Fair Value Measurements

The following table presents assets that were measured at fair value on a nonrecurring basis as of December 31, 2013 and September 28, 2014:

	Fair Value at December 31, 2013	Fair Value at September 28, 2014 Using Level 2 Inputs	Impairment Charge
Goodwill	\$ 1.4	\$ -	\$ 1.4
Intangible Assets	1.9	-	1.9
Total ¹	\$ 3.3	\$ -	\$ 3.3

¹ The Company recognized an impairment charge of \$3.3 on intangible assets in its Firearms segment. The loss was determined by comparing the fair value of the assets to their carrying value. The fair value was calculated using a discounted cash flow valuation model based on Level 3 inputs. The loss was the result of management’s revised outlook on market conditions in the handgun market. Refer to note 5.

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (dollars in millions, except share and per share amounts) – Unaudited

Other Fair Value Measurements

Due to their liquid nature, the carrying values of cash and cash equivalents, trade receivables, accounts payable and other accrued liabilities are considered representative of their fair values. The Company's debt had an estimated fair value of \$875.6, \$839.9, and \$658.8 as of September 28, 2014, December 31, 2013, and September 29, 2013, respectively, and a carrying value of \$879.0, \$823.5, and \$647.5 as of September 28, 2014, December 31, 2013, and September 29, 2013, respectively. The fair value of the Company's fixed rate notes was measured using the active quoted trading price of its notes at September 28, 2014, December 31, 2013, and September 29, 2013, which is considered a Level 2 input.

As a result of the restructuring activities that are discussed in note 17, the Company recognized a \$1.6 liability for prematurely terminated operating leases on properties that have ceased operations. The liability represents the fair value of the leases' termination costs and was computed using the present value of the remaining rental payments, reduced by estimated sublease receipts that are reasonably expected for each property. Estimated sublease receipts are required to be used in the fair value determination even if the Company's intent to sublease the properties is nonexistent. Inputs such as price per square foot and length of lease terms on local properties used in a similar manner as the Company's vacated facilities were used to estimate sublease receipts. The discount rate used to determine the liability's fair value is commensurate with the Company's incremental borrowing rate. Since they are based on unobservable market data, the assumptions used in the liability's calculation are considered to be Level 3 inputs.

Concentrations of Credit Risk

The Company also has concentrations of credit risk with certain customers. Approximately 10.5% and 12.9% of total sales for the three months ended September 28, 2014 and September 29, 2013, respectively, and 10.1% and 10.3% of total sales for the nine months ended September 28, 2014 and September 29, 2013, respectively, consisted of sales made to one customer.

4. Inventories

	September 28, 2014	December 31, 2013	September 29, 2013
Raw Materials	\$ 76.4	\$ 91.4	\$ 95.2
Semi-Finished Products	36.5	48.7	46.8
Finished Products	170.7	127.8	90.1
Total	\$ 283.6	\$ 267.9	\$ 232.1

5. Intangible Assets

Goodwill

The changes in the carrying amount of goodwill for the periods ended September 28, 2014, December 31, 2013, and September 29, 2013 by reporting segment are as follows:

Goodwill by Segment:	September 28, 2014	Changes ¹	December 31, 2013	September 29, 2013
Firearms	\$ 54.5	\$ (4.3)	\$ 58.8	\$ 62.9
Ammunition	23.9	-	23.9	23.9
All Other	1.9	-	1.9	8.6
Total Goodwill	\$ 80.3	\$ (4.3)	\$ 84.6	\$ 95.4

¹ Goodwill related to the Company's Firearms segment decreased due to \$3.2 of decreases from purchase price accounting adjustments, a \$0.2 decline in foreign currency exchange rates and \$1.4 of impairment charges, offset by the addition of \$0.5 of goodwill from business acquisitions. Purchase accounting adjustments from the acquisition of Storm Lake resulted in a \$0.9 increase in fixed assets, a \$0.9 increase in trademarks and a \$1.4 increase in definite-lived intangible assets.

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

During the three months ended September 28, 2014, the Company recognized a \$1.4 impairment charge related to goodwill in its Firearms segment due to decreased demand in the saturated handgun market. Refer to note 3 for additional information on impairment charges.

Intangible Assets Other Than Goodwill

Indefinite-Lived Intangible Assets

The following table summarizes information related to the carrying amount of the Company's indefinite-lived intangible assets:

Indefinite-Lived Intangible Assets:	September 28, 2014	Changes ¹	December 31, 2013	September 29, 2013
Trademarks, net	\$ 71.1	\$ (0.9)	\$ 72.0	\$ 70.6

¹ Trademarks decreased due to \$1.9 of recognized impairment charges offset by \$0.9 of capitalized trademarks resulting from purchase accounting adjustments on the acquisition of Storm Lake and \$0.1 from increases in foreign currency exchange rates. Softening demand in a saturated handgun market resulted in waning brand recognition. Refer to note 3 for additional information on impairment charges.

Definite-Lived Intangible Assets

The following table summarizes information related to the gross carrying amounts, accumulated amortization, and net carrying amounts of the Company's definite-lived intangible assets:

Definite-Lived Intangible Assets:	September 28, 2014	Changes ¹	December 31, 2013	September 29, 2013
Customer Relationships, net ²	\$ 31.7	\$ (2.0)	\$ 33.7	\$ 28.1
License Agreements, net	-	(0.5)	0.5	0.8
Developed Technology, net ²	3.0	0.6	2.4	2.9
Other, net ²	0.7	-	0.7	0.6
Total Definite-Lived Intangible Assets, net	\$ 35.4	\$ (1.9)	\$ 37.3	\$ 32.4

¹ The carrying value of the Company's definite-lived intangible assets at September 28, 2014 declined \$1.9 since the beginning of the year. The decrease was due to \$4.9 of amortization expense which was offset by \$2.8 of capitalized intangible assets from purchase price accounting adjustments and recent business acquisitions and a \$0.2 nonmonetary exchange. Amortization expense of intangible assets was \$1.6 and \$4.9 for the three and nine months ended September 28, 2014, respectively, and \$1.6 and \$5.0 for the three and nine months ended September 29, 2013, respectively.

² Purchase price accounting adjustments on the acquisition of Storm Lake led to a \$1.4 increase in Customer Relationships. Recent acquisitions resulted in a \$1.2 increase in Developed Technology, \$0.1 increase in Customer Relationships and \$0.1 increase in Other intangible assets. The increases to Customer Relationships and Developed Technology assets will be amortized over estimated economic useful lives of 6.3 and 9.0 years, respectively. The Company also exchanged \$0.2 of equipment in return for a one-year extension of an existing noncompete agreement. The total \$0.3 increase to Other intangible assets will be amortized over 4.7 years.

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

6. Accrued Liabilities

Accrued Liabilities consisted of the following at:

	September 28, 2014	December 31, 2013	September 29, 2013
Settlement Reserve ¹	\$ 29.7	\$ -	\$ -
Excise Tax	19.0	21.5	30.8
Marketing	18.4	28.2	27.2
Product Safety Warnings ²	14.3	1.5	3.5
Incentive Compensation	2.9	37.1	30.4
Other	62.2	50.6	47.4
Total	\$ 146.5	\$ 138.9	\$ 139.3

¹ Settlement reserve for Model 700™. Refer to note 14.

² Includes \$12.9 remaining accrual related to the Model 700™ and Model Seven™ rifles as of September 28, 2014, refer to note 14.

7. Debt

Long-term debt consisted of the following at:

	September 28, 2014	December 31, 2013	September 29, 2013
7.875% Senior Secured Notes due 2020 (the “2020 Notes”)	\$ 250.0	\$ 250.0	\$ 250.0
Seven Year Term Loan B (the “Term Loan B”)	567.4	569.9	397.1
Credit Facility (the “ABL Revolver” or “ABL”)	48.0	-	-
Promissory Note	12.5	-	-
Other Debt ¹	1.1	3.6	0.4
Subtotal	\$ 879.0	\$ 823.5	\$ 647.5
Less: Current Portion	(6.5)	(9.4)	(4.4)
Total	\$ 872.5	\$ 814.1	\$ 643.1

¹ Other Debt consists of borrowings under short-term financings for insurance premiums and capital lease obligations.

7.875% Senior Secured Notes due 2020

The 2020 Notes, co-issued by FGI Opco and FGI Finance (the “Issuers”) are guaranteed by Remington Outdoor, FGI Holding and each of FGI Opco’s wholly-owned domestic restricted subsidiaries that are borrowers or guarantors under the ABL and Term Loan B (collectively, the “Guarantors”). Interest is payable on the 2020 Notes semi-annually on May 1 and November 1 of each year.

The Issuers may redeem some or all of the 2020 Notes at any time prior to May 1, 2015 at a price equal to 100% of the principal amount thereof, accrued and unpaid interest plus the make-whole premium. The make-whole premium is the greater of (1) 1.0% of the then outstanding principal amount of the 2020 Notes or (2) the excess of the present value of the redemption price of the 2020 Notes on May 1, 2015 plus all required interest payments due on the 2020 Notes through May 1, 2015 (excluding accrued but unpaid interest), computed using the discount rate equal to the Treasury Rate as of such redemption date plus 50 basis points over the then outstanding principal amount of the 2020 Notes. In addition, the 2020 Notes will be redeemable in whole or in part including accrued and unpaid interest at the redemption prices set forth below beginning on May 1 of each of the noted years:

Period Redemption Price

2015	105.906%
2016	103.938%
2017	101.969%
2018 and thereafter	100.000%

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

The Issuers may also redeem up to 35% of the outstanding 2020 Notes on or prior to May 1, 2015 with the proceeds of certain equity offerings at the redemption price of 107.875%.

The 2020 Notes and guarantees, with the exception of Remington Outdoor's guarantee, which is unsecured, are secured by a third-priority lien on substantially all existing and future assets of FGI Holding, the Issuers and the subsidiary guarantors that secure the ABL Revolver and the Term Loan B, other than real property which only secures the Term Loan B. The collateral consists of substantially all of FGI Opco's and the Guarantors' (other than Remington Outdoor's) tangible and intangible assets, other than real property and certain other exceptions. The indenture governing the 2020 Notes contains covenants which include, among others, limitations on restricted payments; incurrence of indebtedness; issuance of disqualified stock and preferred stock; merger, consolidation or sale of all or substantially all assets; transactions with affiliates; and dividend and other payments. The 2020 Notes also include customary events of default.

Term Loan B

The Term Loan B agreement was entered into by FGI Opco, as the borrower, and is guaranteed by FGI Holding and each of FGI Opco's wholly-owned direct and indirect domestic subsidiaries, excluding Outdoor Services. FGI Opco may designate, at its discretion, from time to time, certain subsidiaries that are not guarantors. The Term Loan B has a first priority lien on all of FGI Opco's and the Guarantors' tangible and intangible assets, including 100% of the subsidiaries' capital stock, but excluding accounts receivable, inventory and certain general intangibles, including intellectual property (the "ABL Priority Collateral"). The Term Loan B has a second priority lien on all ABL Priority Collateral.

Borrowings under the Term Loan B bear interest at an annual rate of either (a) the LIBOR rate (with a floor of 1.25%) plus a spread or (b) the base rate (with a floor of 2.25%) plus a spread. The Term Loan B has annual amortization payments due each year in an amount equal to 1% of the original principal balance thereof, with the balance due at maturity. FGI Opco may at any time after December 17, 2014, without premium or penalty, voluntarily prepay the Term Loan B in whole or in part, and prior to December 17, 2014, voluntarily prepay the Term Loan B, in whole or in part, subject, in certain circumstances, to a payment of a 1% premium of the amount prepaid. The Term Loan B also had an accordion feature that has been exercised on two occasions.

At September 28, 2014, the weighted average interest rate on the Term Loan B was 5.5%.

ABL Revolver

The ABL is a five-year \$225.0 Asset-Based Revolving Credit Facility, including sub-limits for letters of credit and swingline loans. On June 27, 2014, the ABL Revolver was modified to increase the maximum borrowings by \$75.0 from the pre-existing \$150.0 maximum borrowing limit. The amendment extended the maturity date of the ABL Revolver to June 27, 2019 and modestly refined the borrowing base and fee calculations. FGI Holding's and FGI Opco's existing wholly-owned direct and indirect domestic subsidiaries other than Outdoor Services are either a borrower or guarantor under the ABL Revolver. FGI Opco may designate, at its discretion, from time to time, certain subsidiaries that are not borrowers or guarantors. The ABL Revolver has a first lien claim on the ABL Priority Collateral, in addition to a second lien claim on the Term Loan B collateral other than real property.

Borrowings under the ABL Revolver bear interest at an annual rate of either (a) the LIBOR rate plus a spread or (b) the base rate plus a spread. The LIBOR and base rate spreads fluctuate based on the amount of available borrowing capacity under the ABL Revolver as provided in the ABL Revolver. The ABL Revolver includes an unused line fee of 0.375% that will be charged at an annual rate to be paid monthly in arrears. FGI Opco will pay a fee on letters of credit equal to the applicable LIBOR margin and a fronting fee equal to 0.125% per annum, in each case to be paid monthly in arrears.

The ABL Revolver and the Term Loan B (together, the "Credit Facilities") contain customary covenants applicable to FGI Opco and its subsidiaries, other than certain unrestricted subsidiaries. The Credit Facilities contain certain covenants, as well as restrictions on, among other things, the ability of FGI Opco and its subsidiaries to:

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (dollars in millions, except share and per share amounts) – Unaudited

incur debt; incur liens; declare or make distributions to stockholders; make loans and investments; repay debt; enter into mergers, acquisitions and other business combinations; engage in asset sales; amend or modify governing documents; engage in businesses other than business as currently conducted; and enter into transactions with affiliates. The Credit Facilities include customary events of default, including cross-defaults to the 2020 Notes and other indebtedness.

As of September 28, 2014, there was \$48.0 of outstanding borrowings under the ABL Revolver with a 2.9% weighted average interest rate. Approximately \$155.5 in additional borrowings was available at September 28, 2014 which includes the minimum availability requirement of \$33.75.

Promissory Note

In February 2014, the Company entered into a Promissory Note (the “Promissory Note”) with the city of Huntsville, Alabama for \$12.5. Borrowings from the Promissory Note bear interest at an annual rate of 5.0% per annum. The Promissory Note has an eleven-year term with annual amortization payments due each year beginning in the second year of a four year issuance equal to 10% of the original principal balance. Principal and interest payments commence on the second anniversary date of the Promissory Note and are due between 30 and 150 days after such date for the first eight years of the term and 90 days after such date for the remaining years of the term. If the Company meets certain employment goals for the year preceding the principal and interest payment dates, the annual principal and related interest for that payment period will be forgiven. If the Company partially meets those employment goals, then the principal and interest for that year will be partially forgiven on a pro-rata basis. If the Company closes the facility in Huntsville, Alabama or relocates that facility prior to the maturity date of the Promissory Note, any previously forgiven principal and interest amounts will be reinstated and payable as of the date of such closing or relocation less any vested amounts.

Other Debt

Short-Term Borrowings consist of an unsecured, fixed interest agreement for financing premiums on the Company’s insurance policy. The interest rate under this annual agreement was 2.0% and matures in November 2014.

The Company was in compliance with its debt covenants at September 28, 2014 and outstanding standby letters of credit were approximately \$15.0.

During 2014, the Company obtained an \$11.2 surety bond in order to appeal certain litigation judgments. This surety bond is not recognized on our condensed consolidated balance sheet as of September 28, 2014.

8. Stock Compensation

Restricted Stock/Restricted Units

The following table summarizes restricted common unit/share activity for the nine months ended September 28, 2014:

	Restricted Common Units/Shares Outstanding	Weighted-Average Grant Date Fair Value	Units/Shares Vested
Balance at December 31, 2013	10,300	\$ 2,700.88	4,487
Granted ¹	1,635	3,089.85	1,794
Forfeited	(1,179)	3,089.85	-
Balance at September 28, 2014	10,756	\$ 2,717.37	6,281

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

¹ Compensation expense was approximately \$1.0 and \$5.1 for the three and nine months ended September 28, 2014, respectively. There was no compensation expense for the three and nine months ended September 29, 2013. During the nine months ended September 28, 2014, the Company also recognized \$5.1 related to the tax gross ups on the issuance of the restricted shares. The compensation expense and related tax gross ups are included in Other Expense on the consolidated statement of operations. The Company expects to recognize an additional \$13.9 in compensation expense through 2017 for the non-vested restricted shares.

Stock Options

On May 14, 2008, the Company’s Board of Directors (the “Board”) adopted the Remington Outdoor Company, Inc. 2008 Stock Incentive Plan (formerly the American Heritage Arms, Inc. 2008 Stock Incentive Plan, as amended and restated through of December 31, 2013) (the “Plan”). The Plan is designed to provide a means by which certain current employees, officers, non-employee directors and other individual service providers may be given an opportunity to benefit from increases in the value of Remington Outdoor common stock (the “Common Stock”), through the grant of awards. Remington Outdoor, by means of the Plan, seeks to retain the services of such eligible persons and to provide incentives for such persons to exert maximum efforts for the success of Remington Outdoor and its subsidiaries.

The awards under the Plan may be in the form of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock awards and stock unit awards. The maximum aggregate number of shares of Common Stock that may be issued under all awards granted to participants under the Plan is 24,247 shares, including approximately 1,234 shares which are restricted shares and not stock options, subject to certain adjustments as set forth in the Plan.

Also on May 14, 2008, the Board adopted the form of Nonqualified Stock Option Award Agreement (the “Form Award Agreement”). The Form Award Agreement outlines terms relating to stock option awards, including (i) the exercise price per share of each option granted, which shall be the fair market value of a share of the Common Stock on the date of grant (as defined in the Plan), (ii) the vesting schedule of the options granted, and (iii) acceleration provisions upon the occurrence of a change in control, termination of employment without cause or termination of employment for good reason.

During the three and nine months ended September 28, 2014, the Company did not recognize any compensation expense. The Company did not recognize any compensation expense during the three months ended September 29, 2013, and recognized less than \$0.1 in expense during the nine months ended September 29, 2013 related to these options. Since all of the Company’s outstanding options are fully vested, no additional compensation expense is expected to be recognized.

A summary of the stock option activity for the Plan for the nine months ended September 28, 2014 is as follows:

	Number of Awards	Weighted-Average Exercise Price
Awards outstanding at December 31, 2013	5,445	\$ 389.05
Exercised and Repurchased ¹	1,994	447.83
Awards outstanding at September 28, 2014	3,451	\$ 355.09
Awards vested at September 28, 2014	3,451	\$ 355.09
Shares available for grant at September 28, 2014	6,854	

¹ In the nine months ended September 28, 2014, the Company received approximately \$0.9 for 1,994 of exercised vested stock options. The Company then disbursed approximately \$6.2 to repurchase the 1,994 of exercised vested stock options.

(dollars in millions, except share and per share amounts) – Unaudited

9. Stockholders' Equity

The Company is authorized to issue 200,000 shares of \$0.01 par value preferred stock as approved by the Board. As of September 28, 2014, there were 190,000 shares of preferred stock approved for issuance as Series A preferred stock, with no other approved classes of preferred stock issued or outstanding. There were 186,977 shares issued and zero shares outstanding of the Company's Series A preferred stock for all periods presented.

The Company is also authorized to issue 200,000 shares of \$0.01 par value common stock. Changes in the Company's common stock for the nine months ended September 28, 2014 and September 29, 2013 are as follows:

Common Stock	Issued	Held in Treasury	Outstanding
Shares of Common Stock at December 31, 2012	166,989	(4,227)	162,762
Shares of Common Stock at September 29, 2013	166,989	(4,227)	162,762
Shares of Common Stock at December 31, 2013	171,547	-	171,547
Issuances ¹	1,635	-	1,635
Forfeitures ²	-	1,179	(1,179)
Shares of Common Stock at September 28, 2014	173,182	1,179	172,003

¹ During the nine months ended September 28, 2014, the Company issued 1,519 shares of common stock and utilized 475 shares held in treasury to satisfy 1,994 exercised stock option awards. The Company granted 1,635 shares of restricted common stock awards and released all 1,519 shares that were held in treasury and issued an additional 116 shares of common stock for the grant. Refer to note 8.

² Forfeited unvested restricted stock awards are measured by the number of forfeited shares multiplied by the par value of the Company's common stock. See note 8.

10. Other Comprehensive Income (Loss)

Accumulated other comprehensive income (loss) ("AOCI") on the Company's condensed consolidated balance sheet is attributable to the parent company. There was no other comprehensive income (loss) ("OCI") attributable to noncontrolling interests in the Company's less-than-wholly-owned subsidiaries in the periods presented.

Each component of OCI and their related tax effects for the three months ended September 28, 2014 and September 29, 2013 is as follows:

Three Months Ended September 28, 2014	Before Taxes	Taxes	After Taxes
Foreign currency translation adjustments ^{1,2}	\$ (0.2)	\$ -	\$ (0.2)

(dollars in millions, except share and per share amounts) – Unaudited

11. Net Income (Loss) Per Share

The following table sets forth the computation of basic and diluted net income (loss) per share for the periods indicated (in millions, except share and per share amounts):

	<u>Three Months Ended</u>		<u>Nine Months Ended</u>	
	<u>September 28, 2014</u>	<u>September 29, 2013</u>	<u>September 28, 2014</u>	<u>September 29, 2013</u>
Numerator:				
Net income (loss) attributable to controlling interest	\$ (6.4)	\$ 30.6	\$ (41.1)	\$ 93.3
Denominator:				
Weighted average common shares outstanding (basic)	167,198	162,762	166,572	162,762
Weighted average common shares outstanding (diluted)	167,198	165,536	166,572	166,551
Income (Loss) per Common Share:				
Basic	\$ (37.90)	\$ 188.10	\$ (246.53)	\$ 572.91
Diluted	\$ (37.90)	\$ 184.95	\$ (246.53)	\$ 563.26
Common Share Equivalents of Potentially Dilutive Securities:				
Restricted Stock	4,475	-	4,475	-
Stock Options	3,451	803	3,451	803
Total	7,926	803	7,926	803

12. Income Taxes

The effective tax rate on continuing operations for the nine months ended September 28, 2014 and September 29, 2013 was 30.9% and 36.0%, respectively. The difference between the actual effective tax rate and the federal statutory rate of 35% is principally due to state income taxes, permanent differences, and utilization of available tax credits as of September 28, 2014 and September 29, 2013. In addition, the effective tax rate for the nine months ended September 28, 2014 was impacted by an increase to the Company's valuation allowance of \$3.7 for certain state tax credits. The valuation allowance was recorded as the result of changes in the corporate income tax regime for New York State due to legislation enacted effective March 31, 2014. The Company believes that the deferred tax asset related to the New York State tax credits carried forward is no longer more likely than not to be realized as a result of the enacted legislation. United States income taxes have not been accrued on the earnings of Remington UK because the Company intends to indefinitely reinvest these funds outside of the United States.

13. Retiree Benefits

Defined Benefit Pension Plans:

The Company sponsors two defined benefit pension plans and a supplemental defined benefit pension plan for certain of its employees. For disclosure purposes, the three defined benefit plans have been combined and are collectively referred to as the "Plans". Vested employees who retire will receive an annual benefit equal to a specified amount per month per year of credited service, as defined by the Plans.

The following table summarizes the components of net periodic pension cost for the periods indicated:

	<u>Three Months Ended</u>		<u>Nine Months Ended</u>	
	<u>September 28, 2014</u>	<u>September 29, 2013</u>	<u>September 28, 2014</u>	<u>September 29, 2013</u>
Interest Cost	\$ 2.8	\$ 2.6	\$ 8.6	\$ 7.7
Adjustment to Service Cost	-	-	-	0.1
Expected Return on Assets	(3.9)	(3.9)	(11.7)	(11.6)
Recognized Net Actuarial (Gains) Losses	0.7	0.9	1.9	2.7
Net Periodic Pension (Benefit)/Cost	\$ (0.4)	\$ (0.4)	\$ (1.2)	\$ (1.1)

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

The Company made approximately \$0.2 of contributions to its Plans in the nine months ended September 28, 2014. The Company expects to make aggregate cash contributions totaling approximately \$0.3 to the Plans during the current fiscal year.

Other Postretirement Benefit Plans

The following table summarizes the components of net periodic post-retirement cost for the periods indicated:

	Three Months Ended		Nine Months Ended	
	September 28, 2014	September 29, 2013	September 28, 2014	September 29, 2013
Interest Cost	\$ -	\$ 0.2	\$ 0.4	\$ 0.6
Net Periodic Post-Retirement Cost	\$ -	\$ 0.2	\$ 0.4	\$ 0.6

14. Commitments and Contingencies

Purchase Commitments

The Company has various purchase commitments for services incidental to the ordinary course of business, including, among other things, a services contract with its third party warehouse provider. Such commitments are not at prices in excess of current market prices. Included in the purchase commitment amounts are the Company's purchase contracts with certain raw material suppliers, for periods ranging from one to seven years, some of which contain firm commitments to purchase specified minimum quantities.

Contingencies

The Company is subject to various lawsuits and claims with respect to product liabilities, governmental regulations and other matters arising in the normal course of business. Pursuant to an asset purchase agreement (the "Purchase Agreement") on December 1, 1993, Remington acquired certain assets and assumed certain liabilities (the "Asset Purchase") of the sporting goods business formerly operated by E. I. du Pont de Nemours and Company ("DuPont") and one of DuPont's subsidiaries (together with DuPont, the "1993 Sellers"). Under the Purchase Agreement, the Company generally bears financial responsibility for all product liability cases and claims relating to occurrences after the closing of the Asset Purchase, except for certain costs relating to certain shotguns, for all cases and claims relating to discontinued products and for limited other costs. Because the Company's assumption of financial responsibility for certain product liability cases and claims involving pre-Asset Purchase occurrences was limited to a fixed amount that has now been fully paid, and with the 1993 Sellers retaining liability in excess of that amount and indemnifying the Company in respect of such liabilities, the Company believes that product liability cases and claims involving occurrences arising prior to the Asset Purchase are not likely to have a material adverse effect upon the financial condition, results of operations or cash flows of the Company. Moreover, although it is difficult to forecast the outcome of litigation, the Company does not believe, in light of relevant circumstances (including the current availability of insurance for personal injury and property damage with respect to cases and claims involving occurrences arising after the Asset Purchase, the Company's accruals for the uninsured costs of such cases and claims and the 1993 Sellers' agreement to be responsible for a portion of certain post-Asset Purchase shotgun-related product liability costs, as well as the type of firearms products made by the Company) and the passage of time, that the outcome of all pending post-Asset Purchase product liability cases and claims will be likely to have a material adverse effect upon the financial condition, results of operations or cash flows of the Company. Nonetheless, in part because the nature and extent of manufacturer liability based on the manufacture and/or sale of allegedly defective products (particularly as to firearms and ammunition) is uncertain, there can be no assurance that the Company's resources will be adequate to cover pending and future product liability and other product related occurrences, cases or claims, in the aggregate, or that such a material adverse effect upon the Company's financial condition, results of operations or cash flows will not result therefrom. Because of the nature of its products, the Company anticipates that it will continue to be involved in product liability and product related litigation in the

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

future. As of September 28, 2014, the Company had two class action cases pending relating to breach of warranty claims concerning certain of its firearms products where economic damages were being claimed.

The Company's accruals for losses relating to product liability cases and claims include accruals for all probable losses for which the amount can be reasonably estimated. Based on the relevant circumstances (including the current availability of insurance for personal injury and property damage with respect to cases and claims involving occurrences arising after the Asset Purchase, the Company's accruals for the uninsured costs of such cases and claims and the 1993 Sellers' agreement to be responsible for a portion of certain post-Asset Purchase shotgun-related product liability costs, as well as the type of firearms products made by the Company), the Company does not believe with respect to product liability and product related cases and claims that any reasonably possible loss exceeding amounts already recognized through the Company's accruals exists. At September 28, 2014, December 31, 2013, and September 29, 2013, the Company's accrual for product liability cases and claims was \$17.7, \$16.1, and \$16.5, respectively.

In April 2014, the Company announced a product safety warning and recall notice directed towards the public and its consumers concerning the *Remington* Model 700™ and Model Seven™ rifles with X-Mark Pro® (“XMP®”) triggers, manufactured from May 1, 2006 to April 9, 2014. As of September 28, 2014, the Company had expensed \$25.3 associated with the product safety warning and recall notice.

In July 2014, the Company entered into a Memorandum of Understanding to settle the economic loss claims related to the *Remington* Model 700™. As of September 28, 2014, we had accrued \$29.7 associated with the Model 700™ settlement reserve, of which \$5.0 million was expensed in the twelve months ended December 31, 2013 and \$24.7 in the nine months ended September 28, 2014.

The Company is conducting remediation of oil-related contamination at a former facility in New Haven, Connecticut; however, costs are not expected to be material.

15. Derivatives

The Company's activities are exposed to several market risks which could have an adverse effect on its earnings and financial performance. As part of the Company's risk management program, these market risks are continually monitored and managed in part through the utilization of derivative instruments to mitigate the effects of those market risks. Commodity options and swap contracts are used to minimize price risk associated with the purchase of raw materials used in its manufacturing. Interest rate swaps are used to minimize interest rate risk associated with the Company's variable-rate debt. Foreign currency swaps are used to mitigate foreign currency exchange rate risks associated with sales and procurement activities that are denominated in currencies other than the U.S Dollar. Commodity options and swap contracts are agreements to buy and sell a quantity of commodities at predetermined prices on predetermined future dates. An interest rate swap is an agreement between two parties to exchange streams of future interest cash flows based on a specified principal amount. A foreign currency swap is an agreement between two parties to exchange two currencies on a specified date at a specified exchange rate. The Company does not enter into derivative instruments for trading or speculative purposes.

On the date that the Company enters into derivative contracts, it designates and documents all relationships between the derivative instrument and the hedged item, as well as its risk management objective and strategy. All derivative instruments are recognized at their fair value on the Company's condensed consolidated balance sheet in the applicable line items: prepaid expenses and miscellaneous receivables; other assets; accounts payable; accrued expenses; and other long-term liabilities. For those derivative instruments subject to master netting agreements where netting of payments is allowable, the fair values of derivative transactions are presented on a net basis on the condensed consolidated balance sheet. For those derivative instruments subject to master netting agreements where netting of payments is not allowable or that are not subject to master netting agreements, the fair values of derivative transactions are presented on a gross basis on the condensed consolidated balance sheet. The fair value amounts recognized for derivative instruments are offset against the fair value amounts recognized for the right to reclaim cash collateral or the obligation to return cash collateral.

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

Treatment of gains and losses resulting from changes in the fair values of derivative instruments is dependent upon the instruments' designation and qualification as hedging instruments. The effective portion of changes in the fair values of derivative instruments that qualify as cash flow hedges are recorded in AOCI and are reclassified on the same line item of the condensed consolidated statement of operations as the hedged item is recorded during the same period the hedged item affects earnings. The ineffective portion of changes in the fair values of derivatives qualifying as cash flow hedges is immediately recognized into earnings. For those derivatives that were not designated or that did not qualify as hedging instruments, their changes in fair values are immediately recognized in earnings on the same line item of the condensed consolidated statement of operations as the hedged item is recorded. Cash flows from derivative instruments are classified in the same category as cash flows from the hedged item on the condensed consolidated statement of cash flows.

All of the Company's current derivative instruments are subject to master netting agreements and payments for the derivative contracts are allowed to be netted. Netting of payments for derivative instruments are allowable if the aggregate amount of transactions payable by one party exceeds the aggregate amount of transactions that are receivable by that party and if paid in the same currency. In the event of default, an early termination penalty payable to the non-defaulting party can be reduced by amounts payable to the defaulting party if the non-defaulting party so chooses. The fair values of all derivative instruments are presented on a net basis on the condensed consolidated balance sheet. Refer to note 3 for the net fair value presentation of the Company's derivative instruments as presented on the condensed consolidated balance sheet.

Cash Flow Hedges

Commodity Contracts

The Company enters into copper and lead commodity swap and option contracts to mitigate price fluctuations on future commodity purchases. Both commodity option and swap contracts qualify for and have been designated as cash flow hedges and changes in the fair values of these contracts are recorded in AOCI until sales of ammunition that included previously hedged purchases of copper and lead have been recognized. Approximately \$1.6 of the net commodity contracts' loss (net of deferred taxes) included in AOCI is expected to be reclassified into earnings within the next twelve months.

At September 28, 2014, the fair values of the Company's outstanding swap contracts were \$(2.7) and hedged firm commitments of an aggregate notional amount of 33.5 million pounds of copper and lead. The commodity swap contracts outstanding at September 28, 2014 will settle over the next 25 months. At December 31, 2013, the fair values of the Company's outstanding swap contracts were \$(0.6) and hedged firm commitments of an aggregate notional amount of 46.2 million pounds of copper and lead and will settle by July 2015. At September 29, 2013, the fair values of the Company's outstanding swaps contracts were \$(2.2) and hedged firm commitments of an aggregate notional amount of 54.0 million pounds of copper and lead and will settle by July 2015.

Foreign Currency Swaps

The Company enters into foreign currency swaps to hedge certain portions of forecasted cash flows denominated in foreign currencies. When the U.S. Dollar appreciates against the foreign currencies, the decline in foreign currency cash flows is partially offset by gains in the fair values of the foreign currency swaps. When the U.S. Dollar depreciates against the foreign currencies, the increase in foreign currency cash flows is partially offset by losses in the fair values of the derivative instruments. All of the Company's foreign currency swaps qualify for and have been designated as cash flow hedges. Changes in the fair values of these contracts are recognized in AOCI until the corresponding foreign denominated receivables/payables are collected/remitted. Approximately \$0.1 of the foreign currency swaps' gain (net of deferred taxes) included in AOCI is expected to be reclassified into earnings within the next twelve months.

At September 28, 2014, the fair values of the Company's foreign currency swaps were \$0.2 and the total notional amount was \$26.4. The Company's foreign currency swaps will settle over the next 3 months. At December 31, 2013, the fair values of the Company's foreign currency swaps were approximately zero and the total notional

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

amount was \$43.8. At September 29, 2013, the fair values of the Company's foreign currency swaps were \$(1.1) and the total notional amount was \$43.8.

The following table presents the fair value of the Company's derivative instruments that were designated as cash flow hedges on a gross basis without the effect of master netting agreements at the following dates:

Derivatives Designated as Cash Flow Hedges	Balance Sheet Location	September 28, 2014	December 31, 2013	September 29, 2013

Economic Hedges

Interest Rate Swap

The Company uses interest rate swaps to manage volatility in LIBOR benchmark interest rates by swapping a portion of its variable-rate debt with fixed-rate debt. These interest rate swaps effectively allow the Company to pay a fixed rate of interest. Changes in the fair value of the interest rate swap are immediately recognized in earnings as the derivative did not qualify for hedge accounting.

The interest rate swaps settle on the 19th day of each month commencing on April 19, 2013 and concluding with the April 19, 2018 settlement. The notional amount of the interest rate swaps was \$225.0 at September 28, 2014 and will decrease on an incremental basis annually to \$150.0 by its settlement date.

The following table presents the fair value of the Company's derivative instruments that were not designated as hedging instruments on a gross basis without the effect of master netting agreements at the following dates:

Derivatives Not Designated as Hedging Instruments	Balance Sheet Location	September 28, 2014	December 31, 2013	September 29, 2013

16. Segment Information

The Company's business is classified into two reportable segments: Firearms, which designs, manufactures, imports and markets primarily sporting shotguns, rifles, handguns, modular firearms and airguns; and Ammunition, which designs, manufactures and markets sporting ammunition and ammunition reloading components. The remaining operating segments, which include accessories and other gun-related products, licensed products, apparel and other pet accessories, are combined into the All Other category. Other corporate items include amounts not allocated to the individual segments, including the product safety warning and recall notice, retiree benefit expense (income), certain inventory accounting adjustments and inventory reserves. The Company uses gross profit to evaluate performance for its reporting segments.

Results for the Company's reporting segments for the three months ended September 28, 2014 and September 29, 2013 are as follows:

Three Months Ended	September 28, 2014	September 29, 2013
Net sales from external customers:		
Firearms	\$ 133.1	\$ 195.9
Ammunition	105.1	126.1

17. Restructuring

In March 2014, the Company acquired a facility in Huntsville, Alabama. Since that time, the Company has been working to make improvements, including the creation of a new shooting range and state of the art research and development facility, in addition to the installation of production equipment. As of September 28, 2014, the Company has received \$13.6 related to various state and local incentives. The Company also received \$1.9 of proceeds from the \$12.5 promissory note with the city of Huntsville, with the remaining \$10.6 being used to purchase the facility in Huntsville. In addition to the various state and local incentives, the Company is eligible to be reimbursed amounts for training and recruiting.

In May 2014, the Company announced a vertical integration initiative that will result in the closure of its facilities in Lawrenceville, Georgia, St. Cloud, Minnesota, Elizabethtown, Kentucky, West Jordan, Utah, Kalispell,

REMINGTON OUTDOOR COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except share and per share amounts) – Unaudited

Montana and Pineville, North Carolina. The production at these facilities, along with the production of the Bushmaster and R1 lines at the Ilion, New York facility, will be moved to the Company’s Huntsville, Alabama facility.

As a result of the initiative, the Company disbursed approximately \$2.6 during the nine months ended September 28, 2014. Retention related costs, certain variance write-offs and inventory write-offs are recognized in cost of goods sold, with the remaining restructuring charges being recognized as administrative expenses in the Company’s consolidated statement of operations.

The Company’s current estimate at September 28, 2014 to complete its restructuring initiatives is in a range of \$25.0 to \$30.0. Cumulative costs incurred since inception and costs incurred in the three and nine months ended September 28, 2014 by cost type is as follows:

	Cumulative Costs Incurred to Date	Costs Incurred During the Three Months Ended September 28, 2014	Costs Incurred During the Nine Months Ended September 28, 2014
Severance, Retention, Relocation and Other Employee Benefits	\$ 5.2	\$ 3.1	\$ 5.2
Equipment Transfer and Decommissioning	0.3	0.3	0.3
Contract Terminations	1.7	1.7	1.7
Unfavorable Variances	4.7	4.7	4.7
Total Costs	\$ 11.9	\$ 9.8	\$ 11.9

18. Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued accounting guidance that amends existing guidance on revenue recognition. The new guidance is based on principles that an entity will recognize revenue to depict the transfer of goods and services to customers at an amount the entity expects to be entitled to in exchange for those goods and services. The guidance requires additional disclosures regarding the nature, amount, timing, and uncertainty of cash flows and both qualitative and quantitative information about contracts with customers and applied significant judgments. The new authoritative guidance will become effective in the first quarter of 2018, using one of two retrospective methods of adoption. The Company has not determined which method it will adopt and is evaluating the effects the new guidance will have on its consolidated financial statements.

In April 2014, the FASB issued accounting guidance that amends existing criteria used to identify a discontinued operation. Under the new guidance, the disposal of a component or group of components is required to be reported as a discontinued operation if the disposal represents a strategic shift that will have a major effect on the Company’s operations. The new guidance also enhances existing disclosure requirements. The new authoritative guidance will become effective for disposals that occur in the first quarter of 2015 on a prospective basis. Early adoption is allowed, but only for disposals not reported in previously issued financial statements. The Company does not believe adoption of the new guidance will have a material effect on its consolidated financial statements.

19. Subsequent Events

On November 24, 2014, the Board of Directors of the Company formed a Corporate Governance and Nominating Committee. The initial members of the Committee are General (Ret.) Carns, James Marcotuli and Scott Wille. General Carns will serve as the Chairman of the Governance Committee.

Subsequent events have been evaluated through November 26, 2014, which is the date the financial statements were available to be issued.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the accompanying unaudited interim consolidated financial statements and related notes of Remington Outdoor Company, Inc. (“Remington Outdoor Company,” “Remington Outdoor,” or the “Company”) and its subsidiaries. Remington Outdoor owns 100% of FGI Holding Company, LLC (“FGI Holding”), which in turn owns 100% of FGI Operating Company, LLC (“FGI Opco”). FGI Opco includes the financial results of Remington Arms Company, LLC (“Remington”), Barnes Bullets, LLC (“Barnes”), RA Brands, L.L.C. and Outdoor Services, LLC. FGI Opco also owns 100% of FGI Finance, Inc. (“FGI Finance”). Remington, in turn, owns and includes the financial results of Advanced Armament Corp., LLC (“AAC”), Para USA, LLC (“Para”), a 99% interest in TMRI, Inc. (“TMRI”), Remington Outdoor (UK) Ltd. (“Remington UK”), Great Outdoors Holdco, LLC (“Great Outdoors”), a 75% interest in Mountain Khakis, LLC (“Mountain Khakis”), and an 84% interest in EOTAC, LLC (“EOTAC”).

Management’s Discussion and Analysis of Financial Condition and Results of Operations is separated into the following sections:

- Company Overview
- Current Sales Demand
- Recent Company Developments
- EBITDA Measurements
- Results of Operations
- Liquidity and Capital Resources
- Critical Accounting Policies and Estimates
- Recent Accounting Pronouncements
- Environmental Matters
- Regulatory Developments

Company Overview

We are one of the leading firearms, ammunition and related products companies in the world. We are America’s oldest manufacturer of firearms and ammunition with our *Remington* brand dating back to 1816. We are one of the largest major U.S. manufacturers of both firearms and ammunition, which provides a significant competitive advantage and supports our market leadership position. Our approximately 3,700 employees represent the largest domestic manufacturing presence in the firearms and related industries. This scale enables us to deliver our products throughout the United States and internationally to over 60 countries.

We have a strong management team that is aligned to capture market share and to execute against our strategic opportunities. Management is focused on product innovation, manufacturing efficiency and high quality product standards. We continue to look for opportunities to improve quality and efficiencies in our manufacturing facilities as we strive to extend our leadership as a branded lifestyle company in an increasingly demanding global marketplace. Accordingly, we have continued efforts to innovate new products, improve our production, sales and inventory processes, optimize margins, increase throughput and capacity at our facilities and enact other continuous improvement projects.

In addition, we are committed to enhancing our core businesses and positioning ourselves to take advantage of growth opportunities and improve our business by identifying and pursuing strategic add-on acquisitions or investments that expand and enhance our portfolio of brands, products and intellectual property. We seek to acquire highly complementary businesses that fill gaps in our brand, product, supply chain and intellectual property portfolio, extend our channel relationships, or otherwise grow or improve our total business.

We consistently introduce new and innovative products. We plan to introduce a new shotgun platform that is specifically designed for female and youth shooters. We also expect to introduce new handgun platforms, which will significantly expand our handgun offering beyond our current 1911 range and broaden our participation in new handgun market segments.

Within our *DPMS* Modern Sporting Rifle (“MSRs”) portfolio, we introduced the 308 GEN II firearm in 2014, which, while approximately two pounds lighter than competing products, enhances performance over those products. In 2014, we also introduced a line of *DPMS* MSRs in hunting calibers, which capitalizes on weight reduction technology developed in conjunction with the 308 GEN II.

This year we are celebrating the 75th anniversary of *Remington* Core-Lokt, our best selling centerfire hunting ammunition. In 2014, we have expanded our Premium Pistol and Revolver Ammunition offering with the Ultimate Defense Compact Handgun, which is specially designed for concealed carry handgun customers; we added the Golden Saber Black Belt for Law Enforcement and Defense; to complement our Ultimate Muzzleloader rifle, we produced the Premier AccuTip slug; expanded the VOR-TX line to include a 120gr TAC-TX, 300 AAC BLK offering for MSR shooters and a 280gr LRX 338 Lapua offering for long range hunting applications; we have also added a 357 Magnum TAC-XP Personal Defense load with a 125gr offering. In VOR-TX pistol and revolver, we are now offering 10MM Auto.

Current Sales Demand

Concern over more restrictive government legislation contributed to strong demand in 2013, which has now returned to more normalized levels. In 2014, sales declined compared to the prior year and, in particular sales have declined in MSRs, handguns and centerfire rifles. Firearm sales are also down due to the fact that we temporarily ceased production and sales of our *Remington* Model 700™ during the second and part of the third quarters of 2014 while we focused on the product safety recall. We resumed production and sales of our *Remington* Model 700™ in the third quarter of 2014. We continue to see heavy channel inventories with partners, but we are working together to move inventory through the channels.

The ammunition market has also returned to more normalized levels, with certain categories more affected than others, in particular our shotshell ammunition. Centerfire and rimfire ammunition sales continue to be relatively steady. Although sales for the nine months ended September 28, 2014 are lower than the nine months ended September 29, 2013, we believe our sales continue to remain above historical levels.

Recent Company Developments

New Facility

On March 6, 2014, we completed the acquisition of a facility in Huntsville, Alabama. We believe this facility will allow us to expand our firearm manufacturing capacity and expand our research and development capabilities. Initial production at our Huntsville facility began in the third quarter of 2014. We are continuing to make improvements, including the creation of a new shooting range and state of the art research and development facility, in addition to the installation of equipment in order to ramp up production. Refer to note 1 under “Item 1. — Notes to Consolidated Financial Statements”.

Restructuring

On May 15, 2014, we announced a vertical integration initiative that will result in the closure of our facilities in Lawrenceville, Georgia, St. Cloud, Minnesota, Elizabethtown, Kentucky, West Jordan, Utah, Kalispell, Montana and Pineville, North Carolina. The production at these facilities, along with the production of the Bushmaster and R1 lines at our Ilion, New York facility, will be moved to our Huntsville, Alabama facility. The Company notified affected employees of this decision on May 15, 2014.

We estimate that the total costs associated with our restructuring initiatives will be in the range of \$25.0 million to \$30.0 million. Refer to note 17 under “Item 1. — Notes to Consolidated Financial Statements”.

We anticipate that the vertical integration will provide improved efficiencies that are expected to ultimately increase margins and result in lower costs to customers and end users. The closures are expected to be completed by the end of August 2015.

Impairments

In the third quarter of 2014, we recognized \$1.4 million of impairment charges related to goodwill and \$1.9 million of impairment charges related to intangible assets in our Firearms segment. The impairment was triggered as a result of management's revised outlook on market conditions in the handgun, MSR and centerfire rifle markets. Refer to notes 3 and 5 under "Item 1. — Notes to Consolidated Financial Statements".

Changes in Officers

On March 24, 2014, E. Scott Blackwell announced he was stepping down as President of the Company. Colonel (Ret.) Matt Karres was named Chief of Staff of the Company on May 5, 2014, effective May 12, 2014. Kevin Miniard announced he was stepping down as Chief Operating Officer and Tony Moore announced he was stepping down as Chief Supply Chain and Product Development Officer on September 16, 2014. In addition, on that date, Ginger Chandler joined the Company as Senior Vice President, New Product Development and Innovation.

New Director

On September 16, 2014, James Marcotuli was appointed to serve as a member of the Board of Directors (the "Board") of the Company, effective immediately. As a member of the Board, Mr. Marcotuli will serve as Co-Lead Director, Operations, along with our other Co-Lead Director, Jim Campbell.

Product Safety Warning

On April 11, 2014, we announced a product safety warning and recall notice directed towards the public and our consumers concerning the *Remington* Model 700™ and Model Seven™ rifles with X-Mark Pro® ("XMP®") triggers, manufactured from May 1, 2006 to April 9, 2014. A Remington investigation determined that some XMP triggers might have excess bonding agent used in the assembly process which could, under certain circumstances, cause an unintentional discharge. While we have the utmost confidence in the design of the XMP trigger, we are undertaking this recall in the interest of consumer safety to remove any potential excess bonding agent applied in the assembly process.

As of September 28, 2014, we had accrued \$25.3 million associated with the product safety warning and recall notice. Actual costs related to these actions will depend on several factors, including the number of consumers who respond to the recall and the costs of administration of the program. We are continually evaluating these factors.

Settlement Reserve

On July 2, 2014, we entered into a Memorandum of Understanding to settle all current and future economic loss claims related to the *Remington* Model 700™. As of September 28, 2014, we had accrued \$29.7 million associated with the Model 700™ settlement reserve, of which \$5.0 million was expensed in the twelve months ended December 31, 2013 and \$24.7 million in the nine months ended September 28, 2014.

New Regulatory Developments

In 2013, as a result of several incidents of high-profile crimes by individuals involving firearms, President Obama announced 25 executive actions intended to reduce violent acts by individuals. These actions included requiring background checks for all gun sales, ensuring information on dangerous individuals is available to the background check system, helping to ensure that individuals receive mental health treatment, giving law enforcement additional tools to prevent and prosecute crime, encouraging gun owners to store guns safely, and making schools safer with more school resource officers. In addition, President Obama has announced additional executive actions in 2014, including actions directed at making it easier for states to provide mental health information to the national background check system. On April 17, 2013, the U.S. Senate voted down an amended version of the gun background check proposed by President Obama. No assurance can be given as to whether some or all of these actions will be adopted, and if they are adopted, the effect they may have on our business, results of operations and financial condition.

In addition to proposals at the federal level, we have seen increased regulatory activity at the state level that could restrict or otherwise prohibit the manufacture, sale, purchase, possession or use of firearms and ammunition. Since the start of 2013, more than a dozen states and Washington, D.C. have enacted new laws aimed at strengthening restrictions against guns. In contrast, many states have adopted laws to expand rights for gun owners. For example, on April 23, 2014, Georgia signed into law the “Safe Carry Protection Act”, which allows licensed gun owners to carry their firearms into public places, including certain bars, nightclubs, school zones, churches and government buildings. No assurance can be given as to the effect such legislation may have on our business, results of operations and financial condition.

Future incidents of high-profile crimes by individuals involving firearms could increase pressure to adopt some or all of the proposed regulations described above or spur additional regulatory proposals at the state and federal levels and call for the adoption of such proposals. Any such development might have a material adverse effect on our business, financial condition, results of operations or cash flows.

EBITDA Measurements

We use the term Adjusted EBITDA throughout this interim report. Adjusted EBITDA is not a measure of performance defined in accordance with GAAP. We use Adjusted EBITDA as a supplement to our GAAP results in evaluating certain aspects of our business, as described below. We calculate Adjusted EBITDA based on the definition in the indenture governing the 2020 Notes.

We believe that Adjusted EBITDA is useful to investors in evaluating our performance because similar measures are commonly used financial metrics for measuring and comparing the operating performance of companies in our industry. We believe that the disclosure of Adjusted EBITDA offers additional financial metrics that, when coupled with the GAAP results and the reconciliation to GAAP results, provide a more complete understanding of our results of operations and the factors and trends affecting our business.

Adjusted EBITDA should not be considered as an alternative to net income (loss), as an indicator of our performance, as an alternative to net cash provided by operating activities, as a measure of liquidity, or as an alternative to any other measure prescribed by GAAP. We believe that Adjusted EBITDA may make an evaluation of our operating performance more consistent because such measures remove items that do not reflect our core operations. There are, however, limitations to using non-GAAP measures such as:

- (i) other companies in our industry may define Adjusted EBITDA differently than we do and, as a result, such measures may not be comparable to similarly titled measures used by other companies in our industry; and
- (ii) such measures exclude financial information that some may consider important in evaluating our performance.

Because of these limitations, Adjusted EBITDA calculations should not be considered in isolation or as a measure of the income generated by our business or discretionary cash available to us to invest in the growth of our business. Our management compensates for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA as a supplemental financial metric for evaluation of our operating performance. See our consolidated statements of operations and consolidated statements of cash flows in our consolidated financial statements included elsewhere in this interim report.

We provide a reconciliation of Adjusted EBITDA to our GAAP results to enable investors to perform their own analysis of our operating results. See “–Results of Operations–Adjusted EBITDA” for a reconciliation of Net Income to Adjusted EBITDA.

Results of Operations

Three and Nine Month Periods Ended September 28, 2014 as Compared to the Three and Nine Month Periods Ended September 29, 2013

Net Sales

The following table compares net sales by reporting segment for each of the periods presented:

Three Months Ended	September 28, 2014	Percentage of Total	September 29, 2013	Percentage of Total	Increase (Decrease)	Percentage Change
(in millions except percentages)						
Firearms	\$ 133.1	52.5%	\$ 195.9	56.4%	\$ (62.8)	(32.1)%
Ammunition	105.1	41.4	126.1	36.3	(21.0)	(16.7)
All Other	15.4	6.1	25.1	7.3	(9.7)	(38.6)
Total	\$ 253.6	100.0%	\$ 347.1	100.0%	\$ (93.5)	(26.9)%

Nine Months Ended	September 28, 2014	Percentage of Total	September 29, 2013	Percentage of Total	Increase (Decrease)	Percentage Change
(in millions except percentages)						
Firearms	\$ 362.1	50.0%	\$ 605.9	59.4%	\$ (243.8)	(40.2)%
Ammunition	313.9	43.4	337.1	33.0	(23.2)	(6.9)
All Other	47.5	6.6	77.5	7.6	(30.0)	(38.7)
Total	\$ 723.5	100.0%	\$ 1,020.5	100.0%	\$ (297.0)	(29.1)%

Firearms

Net sales for the three months ended September 28, 2014 were \$133.1 million, a decrease of \$62.8 million, or 32.1%, as compared to the three months ended September 29, 2013. Our firearms sales experienced declines across all our major product categories. MSR and centerfire sales decreased \$65.5 million and sales of handguns decreased \$9.2 million. In addition, sales of shotguns decreased \$4.5 million, while sales of rimfire rifles decreased \$3.4 million. These decreases were partially offset by increases in sales of our other firearm products, firearm parts and services of \$19.9 million.

Net sales for the nine months ended September 28, 2014 were \$362.1 million, a decrease of \$243.8 million, or 40.2%, as compared to the nine months ended September 29, 2013. Our firearms sales experienced declines across all our major product categories. MSR and centerfire sales decreased \$203.8 million and sales of handguns decreased \$26.5 million. In addition, sales of shotguns decreased \$17.7 million, while sales of rimfire rifles decreased \$7.0 million. These decreases were partially offset by increases in sales of our other firearm products, firearms parts and services of \$11.2 million.

In the three and nine months ended September 28, 2014, sales declined, in particular for MSR, handguns and centerfire rifles, as sales have returned to more normalized levels. Concern over more restrictive government legislation contributed to strong demand in the three and nine months ended September 29, 2013. Firearm sales also declined in the three and nine months ended September 28, 2014, due to the fact that we temporarily ceased production and sales of our *Remington Model 700™* during the second and third quarters of 2014, while we focused on the product safety recall. In addition, because of the focus on the product safety recall, many of our new product introductions were delayed. We resumed sales of our *Remington Model 700™* at the beginning of the fourth quarter of 2014.

Ammunition

Net sales for the three months ended September 28, 2014 were \$105.1 million, a decrease of \$21.0 million, or 16.7%, as compared to the three months ended September 29, 2013. Sales of shotshell ammunition decreased \$10.0 million and sales of centerfire ammunition decreased \$5.0 million. In addition, sales in our other product lines decreased \$4.6 million, while sales of rimfire ammunition decreased \$1.4 million.

Net sales for the nine months ended September 28, 2014 were \$313.9 million, a decrease of \$23.2 million, or 6.9%, as compared to the nine months ended September 29, 2013. Sales of shotshell ammunition decreased \$19.2 million and sales of centerfire ammunition decreased \$6.3 million. In addition, sales in our other product lines decreased \$1.5 million. These decreases were partially offset by an increase in rimfire ammunition sales of \$3.8 million.

We believe our ammunition sales have returned to more normalized levels, but are still above historical levels.

All Other

Net sales were \$15.4 million in all other businesses for the three months ended September 28, 2014, a decrease of \$9.7 million, or 38.6%, as compared to the three months ended September 29, 2013. The \$9.7 million decrease is primarily due to lower sales volumes in our various accessories businesses.

Net sales were \$47.5 million in all other businesses for the nine months ended September 28, 2014, a decrease of \$30.0 million, or 38.7%, as compared to the nine months ended September 29, 2013. The \$30.0 million decrease is primarily due to lower sales volumes in our various accessories businesses.

With the return of firearms sales to more normalized levels, our accessories businesses have also experienced a return to more normalized levels, as many of our accessories are aftermarket products for firearms.

Cost of Goods Sold and Gross Profit

Our cost of goods sold includes all costs of material, labor and overhead associated with product manufacturing, except for transfer costs from our plants to our distribution center which are included in selling, general and administrative expense.

The table below compares cost of goods sold and gross profit by reporting segment for each of the periods presented:

Three Months Ended	September 28, 2014	Percentage of Net Sales	September 29, 2013	Percentage of Net Sales	Increase (Decrease)	Percentage Change
<i>(in millions except percentages)</i>						
Cost of Goods Sold						
Firearms	\$ 110.9	83.3%	\$ 125.0	63.8%	\$ (14.1)	(11.3)%
Ammunition	77.9	74.1	84.6	67.1	(6.7)	(7.9)
All Other	9.9	64.3	13.9	55.4	(4.0)	(28.8)
Other Corporate Items	(6.5)	*	2.3	*	(8.8)	*
Total	\$ 192.2	75.8%	\$ 225.8	65.1%	\$ (33.6)	(14.9)%

*Not meaningful

Firearms

Gross profit for the three months ended September 28, 2014 was \$22.2 million, a decrease of \$48.7 million, or 68.7%, as compared to the three months ended September 29, 2013. Gross margin was 16.7% for the three months ended September 28, 2014 and 36.2% for the three months ended September 29, 2013. The decrease in gross profit was primarily due to lower sales volumes of \$21.3 million, higher manufacturing costs of \$10.7 million (which included \$3.0 million of restructuring and start-up costs related to the vertical integration and shift of operations to Huntsville), an unfavorable sales mix of \$8.5 million and unfavorable pricing of \$8.2 million.

Gross profit for the nine months ended September 28, 2014 was \$80.1 million, a decrease of \$132.8 million, or 62.4%, as compared to the nine months ended September 29, 2013. Gross margin was 22.1% for the nine months ended September 28, 2014 and 35.1% for the nine months ended September 29, 2013. The decrease in gross profit was primarily due to lower sales volumes of \$92.0 million, an unfavorable sales mix of \$18.4 million, higher manufacturing costs of \$15.9 million (which included \$3.0 million of restructuring and start-up costs related to the vertical integration and shift of operations to Huntsville), and unfavorable pricing of \$6.5 million.

The decrease in our gross margins for the three and nine months ended September 28, 2014 was due to several factors, including lower sales volumes of our higher margin product lines, in particular our MSR's, handguns and centerfire rifles, as well as lower fixed cost absorption from reduced volumes. Increased use of certain discounts and deals to reduce our inventory also contributed to our lower margins. In addition, lower productivity and one time start up costs related to the vertical integration restructuring and shift of operations to Huntsville was a factor in reducing our margins. Our gross profit was also impacted as a result of our ceasing production and sales of our *Remington Model 700™* during the second and third quarters of 2014, while we focused on the product safety recall. We resumed sales of our *Remington Model 700™* late in the third quarter of 2014.

The higher manufacturing costs are primarily due to unfavorable overhead variances and inventory adjustments.

Ammunition

Gross profit for the three months ended September 28, 2014 was \$27.2 million, a decrease of \$14.3 million, or 34.5%, as compared to the three months ended September 29, 2013. Gross margin was 25.9% for the three months ended September 28, 2014 and 32.9% for the three months ended September 29, 2013. The decrease in gross profit was primarily due to lower sales volumes of \$8.9 million, an unfavorable sales mix of \$4.1 million, higher manufacturing and other costs of \$3.3 million, partially offset by favorable pricing of \$2.0 million.

Gross profit for the nine months ended September 28, 2014 was \$97.5 million, a decrease of \$17.2 million, or 15.0%, as compared to the nine months ended September 29, 2013. Gross margin was 31.1% for the nine months ended September 28, 2014 and 34.0% for the nine months ended September 29, 2013. The decrease in gross profit

was primarily due to lower sales volumes of \$12.4 million, an unfavorable sales mix in certain product lines of \$7.5 million, and higher manufacturing and other costs of \$6.1 million, partially offset by favorable pricing of \$8.8 million.

The higher manufacturing costs for the three and nine months ended September 28, 2014 are primarily due to lower hedging gains and inventory adjustments.

All Other

Gross profit for the three months ended September 28, 2014 was \$5.5 million, a decrease of \$5.7 million, or 50.9%, as compared to the three months ended September 29, 2013 due to decreased demand in our accessories businesses, partially offset by increased demand in our apparel businesses. Gross margin was 35.7% for the three months ended September 28, 2014 and 44.6% for the three months ended September 29, 2013.

Gross profit for the nine months ended September 28, 2014 was \$19.6 million, a decrease of \$15.0 million, or 43.4%, as compared to the nine months ended September 29, 2013 due to decreased demand in our accessories businesses, partially offset by increased demand in our apparel businesses. Gross margin was 41.3% for the nine months ended September 28, 2014 and 44.6% for the nine months ended September 29, 2013.

Other Corporate Items

Other Corporate Items includes pension income and expense, certain inventory accounting adjustments, manufacturing variances, and inventory reserves that are not allocated to our revenue generating segments.

Gross profit for the three months ended September 28, 2014 was \$6.5 million, an increase of \$8.8 million, as compared to the three months ended September 29, 2013, primarily due to \$8.0 million in excess and obsolete inventory reserve accounting adjustments taken in the prior year, \$4.7 million in lower manufacturing variances and \$0.3 million in higher pension income, partially offset by a \$4.2 million charge for restructuring costs.

Gross profit for the nine months ended September 28, 2014 was \$(15.5) million, a decrease of \$12.7 million, as compared to the nine months ended September 29, 2013, primarily due to the \$25.3 million charge for the product safety warning and recall and \$4.2 million charge for restructuring costs, partially offset by \$14.5 million of lower capitalized manufacturing variances, \$1.4 million in lower inventory excess and obsolete inventory reserve accounting adjustments and \$0.9 million in higher pension income.

Operating Expenses

Operating expenses consist of selling, general and administrative expenses, research and development expenses and other expenses. The following table sets forth certain information regarding operating expenses for the three and nine months ended September 28, 2014 and September 29, 2013:

Three Months Ended	September 28, 2014	Percentage of Net Sales	September 29, 2013	Percentage of Net Sales	Increase (Decrease)	Percentage Change
<i>(unaudited, in millions except percentages)</i>						
Selling, General and Administrative Expenses	\$ 48.8	19.2%	\$ 54.9	15.8%	\$ (6.1)	(11.1)%
Research and Development Expenses	5.1	2.0	4.3	1.2	0.8	18.6
Impairment Expense	3.3	1.3	-	-	3.3	100.0
Other Expense	2.6	1.0	1.4	0.5	1.2	85.7
Total	\$ 59.8	23.5%	\$ 60.6	17.5%	\$ (0.8)	(1.3)%

Nine Months Ended	September 28, 2014	Percentage of Net Sales	September 29, 2013	Percentage of Net Sales	Increase (Decrease)	Percentage Change
(unaudited, in millions except percentages)						
Selling, General and Administrative Expenses	\$ 164.3	22.7%	\$ 165.4	16.2%	\$ (1.1)	(0.7)%
Research and Development Expenses	15.2	2.1	12.0	1.2	3.2	26.7
Impairment Expense	3.3	0.5	0.6	0.1	2.7	450.0
Other Expense	13.9	1.9	4.2	0.4	9.7	231.0
Total	\$ 196.7	27.2%	\$ 182.2	17.9%	\$ 14.5	8.0%

Total operating expenses for the three months ended September 28, 2014 were \$59.8 million, a decrease of \$0.8 million, or 1.3%, as compared to the three months ended September 29, 2013.

Selling, general and administrative expenses decreased \$6.1 million, or 11.1%, primarily due to lower variable incentive compensation expense of \$9.4 million, lower legal expense of \$1.4 million and lower variable distribution and commissions expenses of \$0.6 million. These decreases were partially offset by higher salaries and benefits of \$1.7 million and restructuring and start-up costs due to the vertical integration and shift of operations to Huntsville of \$3.7 million.

Research and development expenses increased \$0.8 million, or 18.6%, as compared to the three months ended September 29, 2013, primarily due to increased prototype work.

Impairment expense of \$3.3 million for the three months ended September 28, 2014 consisted of a \$1.4 million impairment charge related to goodwill and a \$1.9 million impairment charge related to intangible assets in our Firearms segment.

Other expenses increased \$1.2 million, or 85.7%, as compared to the three months ended September 29, 2013, primarily due to \$1.0 million of stock compensation expense.

Total operating expenses for the nine months ended September 28, 2014 were \$196.7 million, an increase of \$14.5 million, or 8.0%, as compared to the nine months ended September 29, 2013.

Selling, general and administrative expenses decreased \$1.1 million, or 0.7%, primarily due to lower variable incentive compensation expense of \$29.2 million, lower variable distribution and commission expenses of \$3.4 million, lower legal expense of \$3.2 million and lower professional fees of \$2.2 million. These decreases were partially offset by a \$24.7 million charge for the Model 700™ settlement reserve and restructuring and start-up costs due to the vertical integration and shift of operations to Huntsville of \$6.4 million. In addition, salaries and benefits increased \$5.9 million.

Research and development expenses increased \$3.2 million, or 26.7%, as compared to the nine months ended September 29, 2013, primarily due to increased prototype work.

Impairment expense of \$3.3 million for the nine months ended September 28, 2014 consisted of a \$1.4 million impairment charge related to goodwill and a \$1.9 million impairment charge related to intangible assets in our Firearms segment. Impairment expense of \$0.6 million for the nine months ended September 29, 2013 consisted of a further write down of assets held for sale, which were subsequently sold in the fourth quarter of 2013.

Other expenses increased \$9.7 million as compared to the nine months ended September 29, 2013, primarily due to \$5.1 million of stock compensation expense and a \$5.1 million tax gross up on the stock issuance, partially offset by an increase in licensing income of \$0.6 million.

Adjusted EBITDA

The following tables illustrate the calculation of Adjusted EBITDA by reconciling Net Income Attributable to Controlling Interest to Adjusted EBITDA:

Three Months Ended	September 28, 2014	September 29, 2013	Increase (Decrease)	Percentage Change
<i>(unaudited, in millions except percentages)</i>				
Net Income (loss)	\$ (6.3)	\$ 30.6	\$ (36.9)	(120.6)%
Adjustments:				
Depreciation	5.9	4.6	1.3	28.3
Interest	14.0	12.6	1.4	11.1
Income tax expense	(6.1)	17.5	(23.6)	(134.9)
Amortization of intangibles	1.6	1.6	-	-
Impairment Expense	3.3	-	3.3	100.0
Other non-cash charges	0.8	(0.1)	0.9	*
Nonrecurring charges	12.9	2.1	10.8	*
Total	\$ 26.1	\$ 68.9	\$ (42.8)	(62.1) %

*Not meaningful

Other non-cash charges of \$0.8 million for the three months ended September 28, 2014 consisted primarily of \$1.0 million of stock compensation expense, partially offset by \$(0.2) million of retiree benefit income.

Nonrecurring charges of \$12.9 million for the three months ended September 28, 2014 consisted of \$9.8 million in restructuring expenses, \$1.1 million in start-up costs, \$0.9 million of expense for due diligence and project fees, \$1.0 million in employee related expenses, and \$0.2 million in bank fees.

Nine Months Ended	September 28, 2014	September 29, 2013	Increase (Decrease)	Percentage Change
<i>(unaudited, in millions except percentages)</i>				
Net Income (loss)	\$ (41.2)	\$ 93.2	\$ (134.4)	(144.2)%
Adjustments:				
Depreciation	16.1	13.2	2.9	22.0
Interest	44.6	31.7	12.9	40.7
Income tax expense (benefit)	(18.4)	52.3	(70.7)	(135.2)
Amortization of intangibles	4.9	5.0	(0.1)	(2.0)
Impairment Expense	3.3	0.6	2.7	450.0
Settlement Reserve	24.7	-	24.7	100.0
Product Safety Warning	25.3	-	25.3	100.0
Other non-cash charges	4.6	(0.1)	4.7	*
Nonrecurring charges	24.9	10.2	14.7	144.1
Total	\$ 88.8	\$ 206.1	\$ (117.3)	(56.9) %

*Not meaningful

Other non-cash charges of \$4.6 million for the nine months ended September 28, 2014 consisted of \$5.1 million of stock compensation expense and \$0.2 million in post employment benefit accruals and losses on disposal of assets. These were partially offset by \$(0.7) million of retiree benefit income.

Nonrecurring charges of \$24.9 million for the nine months ended September 28, 2014 consisted of \$11.9 million in restructuring costs, \$1.7 million in start-up costs, \$1.8 million in expense for due diligence and project fees, a \$5.1 million tax gross up on a restricted stock issuance, \$2.6 million in employee related costs, \$1.0 million in relocation costs, \$0.6 million in bank fees, and \$0.2 million in purchase price accounting adjustments.

Interest Expense

Interest expense was \$14.0 million for the three months ended September 28, 2014, compared to \$12.6 million for the three months ended September 29, 2013. The \$1.4 million increase in interest expense over the three months ended September 29, 2013 was primarily due to \$2.5 million of additional interest expense related to the Term Loan B incremental borrowing of \$175.0 million in December 2013, \$0.4 million of interest expense related to

our ABL Revolver, \$0.2 million of higher amortization expense related to debt acquisition costs, and \$0.1 million of interest expense related to our newly acquired Huntsville facility, partially offset by \$1.8 million of interest income on our interest rate swap,

Interest expense was \$44.6 million for the nine months ended September 28, 2014, compared to \$31.7 million for the nine months ended September 29, 2013. The \$12.9 million increase in interest expense over the nine months ended September 29, 2013 was primarily due to \$7.0 million of additional interest expense related to the Term Loan B incremental borrowing of \$175.0 million in December 2013, \$3.9 million of additional interest expense on our interest rate swap, \$0.8 million of interest expense related to our ABL Revolver, \$0.8 million of higher amortization expense related to debt acquisition costs and amortization of bond discount, and \$0.3 million of interest expense related to our newly acquired Huntsville facility.

Income Tax Provision

The effective tax rate on continuing operations for the nine months ended September 28, 2014 and September 29, 2013 was 30.9% and 36.0%, respectively. The difference between the actual effective tax rate and the federal statutory rate of 35% is principally due to state income taxes, permanent differences, and utilization of available tax credits as of September 28, 2014 and September 29, 2013. In addition, the effective tax rate for the nine months ended September 28, 2014 was impacted by an increase to our valuation allowance of \$3.7 million for certain state tax credits. The valuation allowance was recorded as the result of changes in the corporate income tax regime for New York State due to legislation enacted effective March 31, 2014. We believe that the deferred tax asset related to the New York State tax credits carried forward is no longer more likely than not to be realized as a result of the enacted legislation. United States income taxes have not been accrued on the earnings of Remington UK because we intend to indefinitely reinvest these funds outside of the United States.

We are subject to ongoing audits by federal and various state tax authorities. Depending on the outcome of these audits, we may be required to pay additional taxes. However, we do not believe that any additional taxes and related interest or penalties would have a material impact on our financial position, results of operations, or cash flows.

Liquidity and Capital Resources

Cash Flows and Working Capital

Net cash used in operating activities was \$105.9 million for the nine months ended September 28, 2014 compared to net cash provided by operating activities of \$84.6 million for the nine months ended September 29, 2013. The significant changes comprising the \$190.5 million increase in net cash used in operating activities for the nine months ended September 28, 2014 compared to the nine months ended September 29, 2013 resulted primarily from:

- other liabilities increasing by \$9.7 million over the nine months ended September 28, 2014 compared to an increase of \$48.2 million over the nine months ended September 29, 2013, a net increase in cash used of \$38.5 million, primarily due to decreases in certain accruals associated with sales and marketing, income and excise taxes and employee compensation compared to the prior year period. Declines in these accruals were offset by an additional reserve for the product safety warning;
- accounts payable decreasing by \$17.4 million over the nine months ended September 28, 2014 compared to an increase of \$21.9 million over the nine months ended September 29, 2013, a net increase in cash used of \$39.3 million, due to fewer inventory purchases resulting from normalized firearms sales demand from the previous year;
- the recognition of a \$41.2 million net loss over the nine months ended September 28, 2014 compared to \$93.2 million in net income over the nine months ended September 29, 2013, a net increase in cash used of \$134.4 million; partially offset by

- trade receivables increasing by \$60.3 million over the nine months ended September 28, 2014 compared to an increase of \$79.5 million over the nine months ended September 29, 2013, a net decrease in cash used of \$19.2 million, due primarily to lower sales in the current year versus the previous year.

Net cash used in investing activities was \$63.1 million for the nine months ended September 28, 2014 and consisted of \$61.4 million related to the purchase of property, plant and equipment and \$1.9 million related to certain acquisitions. The disbursements were offset by \$0.2 million of proceeds received for the disposal of equipment. Net cash used in investing activities of \$57.3 million for the nine months ended September 29, 2013 was related to the purchase of property, plant and equipment and the acquisitions of SMK and Storm Lake.

Net cash provided by financing activities was \$55.6 million for the nine months ended September 28, 2014 and consisted primarily of \$48.0 million in net borrowings from the ABL Revolver, \$14.1 million of receipts from various state and local incentives and a \$4.1 million book overdraft. We also received \$1.9 million of proceeds from a \$12.5 million promissory note with the city of Huntsville, Alabama. The remaining proceeds of the promissory note were used to finance the facility in Huntsville, Alabama. In addition, we received \$0.9 million from exercised stock options and realized \$1.8 million of tax benefits from those exercised options. These cash inflows were offset by a \$6.2 million disbursement to repurchase 1,994 shares of our outstanding common stock, \$2.9 million of principal payments on our Term Loan B, \$3.3 million of payments against outstanding balances on our financed insurance premiums and capital lease obligations and \$2.8 million paid for debt issuance costs. Net cash used in financing activities was \$7.2 million for the nine months ended September 29, 2013 and was primarily related to payments for debt and debt issuance costs.

Sources and Uses of Liquidity

We generally expect to fund expenditures for operations, administrative expenses, capital expenditures and debt service obligations with internally generated funds from operations, and to satisfy working capital needs from time to time with borrowings under our ABL Revolver. We believe that we will be able to meet our debt service obligations and fund our short-term and long-term operating requirements in the future with cash flow from operations and borrowings under the ABL Revolver, although no assurance can be given in this regard.

We continue to focus on managing our working capital by monitoring inventory, accounts receivable and accounts payable key performance indicators while recognizing that changes to our sales volumes and timing can impact our working capital strategies. Rather than issue stock, we have typically used debt financing as a means of raising capital and we use our debt financing to either meet noncurrent obligations or to lower our cost of capital.

In June 2014, we amended our credit facility agreement which increased the borrowing capacity under our ABL Revolver by \$75.0 million to \$225.0 million and extended its maturity to June 2019. The amendment to our ABL Revolver resulted in \$1.2 million of additional capitalized debt issuance costs that will be amortized on a straight-line basis over the ABL Revolver's term. In December 2013, we entered into a second incremental term loan (the "Incremental Term Loan") and borrowed an additional \$175.0 million under the senior secured credit facility we initially entered into in April 2012. The additional borrowings will be used to repurchase some of our outstanding common stock and enhance liquidity for general corporate purposes. We were in compliance with our debt covenants at September 28, 2014 and had access to \$155.5 million in borrowings under our ABL Revolver, which includes the minimum availability requirement of \$33.75 million, and \$15.0 million in outstanding letters of credit.

Based on our recent financing activities and access to additional borrowings under our Term Loan B, ABL Revolver and letters of credit, we believe the cash we generate internally from our operating activities provides us with an adequate financial pool that allows us to meet our short-term and strategic goals. Based on these factors, we believe our liquidity position is adequate to meet our financial commitments and manage our business.

Debt

As of September 28, 2014, we had outstanding indebtedness of approximately \$879.0 million, which consisted of the following:

- \$250.0 million of outstanding 2020 Notes;
- \$567.4 million outstanding under our Term Loan B;
- \$48.0 million outstanding under the ABL Revolver;
- \$12.5 million outstanding under the Promissory Note; and
- \$1.1 million of capital lease obligations and other debt.

Capital and Operating Leases and Other Long-Term Obligations

We maintain capital leases mainly for computer equipment. We have several operating leases, including a lease for our Memphis warehouse that expires in June 2016 and leases for several of our manufacturing facilities that expire on various dates through 2018. We also maintain contracts including, among other things, a services contract with our third party warehouse provider. We also have various pension plan obligations, although we do not expect substantial future contributions at this time. As a result of our recent restructuring initiatives, we prematurely terminated the operating leases on rented properties we have vacated and recognized a liability for the fair value of their termination costs. The fair value of lease termination costs is computed based on the remaining rental payments due under the pre-existing lease agreement and reduced by estimated sublease receipts that are reasonably expected for the property.

During the current fiscal year, we obtained an \$11.2 million surety bond in order to appeal recent litigation judgments. We have not recognized a contingency for the judgments or the bond's value on our condensed consolidated balance sheet for the periods presented in this report.

Capital Expenditures

Gross capital expenditures for the nine months ended September 28, 2014 and September 29, 2013 were \$61.4 million and \$44.2 million, respectively, consisting primarily of capital expenditures both for new equipment related to the manufacture of firearms and ammunition and capital maintenance of existing facilities. We expect total capital expenditures for 2014 to be in the range of \$70.0 million to \$80.0 million, of which approximately \$20.0 million is expected to be related to capital maintenance projects and the remainder related to capital expenditures for new assets in order to improve production and produce new products.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition, results of operations and cash flows are based upon our unaudited interim and audited annual consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.

Our significant accounting policies are described in note 1 of the consolidated financial statements and supplementary data included in our Annual Report on Form 10-K for the year ended December 31, 2013. Our critical accounting estimates are described in Item 7. — Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2013. As

stated in note 1 of Item 1. — Notes to Consolidated Financial Statements, we changed our accounting policy for the treatment of inventory parts. Beginning on January 1, 2014, inventory supply parts are now expensed when purchased. To enhance consistency, all financial information within this report has been retrospectively adjusted to reflect the accounting change. Aside from the change in accounting treatment for our supplies inventory and estimates used in determining impairment charges, there have been no other material changes in our significant accounting policies or critical accounting estimates since the end of fiscal 2013.

Environmental Matters

Our operations are subject to a variety of federal, state and local environmental laws and regulations which govern, among other things, the discharge of hazardous materials into the air and water, handling, treatment, storage and disposal of such materials and remediation of contaminated soil and groundwater. We have programs in place that monitor compliance with these requirements and we believe our operations are in material compliance with them. In the normal course of our manufacturing operations, we are subject to occasional governmental proceedings and orders pertaining to waste disposal, air emissions and water discharges into the environment. We believe that we are in compliance with applicable environmental regulations in all material respects, and that the outcome of any such proceedings and orders will not have a material adverse effect on our business.

Under the terms of a legacy asset purchase agreement from 1993 (“Purchase Agreement”) with E.I. DuPont Nemours & Company (“DuPont”) relating to the Remington business (“Asset Purchase”), DuPont agreed to retain responsibility for certain pre-closing environmental liabilities. Remington also entered into an agreement with DuPont with respect to cooperation and responsibility for specified environmental matters. See “Item 4.—Legal Proceedings” and “Item 4. —Legal Proceedings—Certain Indemnities.” To date, DuPont has honored its responsibilities under the Purchase Agreement, but no assurance can be given that it will continue to do so in the future.

There are various pending proceedings associated with environmental liability for which DuPont and its affiliates have accepted liability. Our obligations in these cases are not expected to be material.

Marlin has also conducted remediation activities at its former facilities. Costs for remediation are not expected to be material.

Based on information known to us, we do not expect current environmental regulations or environmental proceedings and claims to have a material adverse effect on our results of operations, financial condition or cash flows. However, it is not possible to predict with certainty the impact of future environmental compliance requirements or the cost of resolution of any future environmental proceedings and claims, in part because the scope of the remedies that may be required is not certain, liability under some federal environmental laws is under certain circumstances joint and several in nature, and environmental laws and regulations are subject to modification and changes in interpretation. There can be no assurance that environmental regulation will not become more burdensome in the future or that unknown conditions will not be discovered and that any such development would not have a material adverse effect on our business. We do not anticipate incurring any material capital expenditures for environmental control facilities for 2014.

Regulatory Developments

The manufacture, sale, purchase, possession, import, export, and use of firearms are subject to extensive federal, state and local governmental regulations. The primary federal laws are the National Firearms Act of 1934 (“NFA”), the Gun Control Act of 1968 (“GCA”), the Arms Export Control Act of 1976 (“AECA”) and the Internal Revenue Code provisions applicable to the Firearms and Ammunition Excise Tax (“FAET”), which have been amended from time to time. The NFA, GCA, and permanent imports under these laws and the AECA, are administered and enforced by the Bureau of Alcohol, Tobacco, Firearms and Explosives through the Department of Justice; permanent and temporary exports under the AECA are administered and enforced by the Directorate of Defense Trade Controls through the Department of State and by the Bureau of Industry and Security through the Department of Commerce; and the FAET is administered and enforced by the Alcohol and Tobacco Tax and Trade Bureau through the Department of Treasury. We maintain valid federal licenses and registrations at our locations as required by these agencies for the Company to import, export, manufacture and sell firearms and ammunition. The

NFA places various additional restrictions on certain firearms defined in that law and its regulations including fully automatic firearms, short barreled rifles, short barreled shotguns, silencers and destructive devices. We do manufacture or import limited products regulated under the NFA primarily for official government and law enforcement end users. The GCA places certain restrictions on the interstate sale of firearms, among other things. The AECA requires approved licenses or other authorizations to be in place prior to the import or export of certain defense articles, firearms, ammunition and explosives. The FAET imposes a federal tax on the sale of or use by the manufacturer, producer or importer of firearms and ammunition. There is no assurance that the administrative branches responsible for approving import and export licenses, authorizations or transfers of NFA firearms or other firearms to our customers will do so in all cases, and failure to obtain such approvals could adversely affect our business. In addition, changes in the tax laws or rates could adversely affect our business.

In 2004, the United States Congress declined to renew the Assault Weapons Ban (“AWB”) which generally prohibited the manufacture of certain firearms defined under that statute as “assault weapons” as well as the sale or possession of “assault weapons” except for those that were manufactured prior to the law’s enactment. Various states and local jurisdictions have adopted their own version of the AWB and some of those apply to Bushmaster, DPMS and certain Remington sporting firearms products. We cannot guarantee that an “assault weapons” ban similar to the AWB, or another version thereof, will not be re-enacted. Legislation of this type, if enacted, could have a material adverse effect on our business.

In 2013, as a result of several significant incidents of high-profile crimes by individuals involving firearms, President Obama announced 25 executive actions intended to reduce violent acts by individuals. These actions include requiring background checks for all gun sales, ensuring information on dangerous individuals is available to the background check system, helping to ensure that individuals receive mental health treatment, giving law enforcement additional tools to prevent and prosecute crime, encouraging gun owners to store guns safely, and making schools safer with more school resource officers. In addition, President Obama has announced executive actions in 2014, including actions directed at making it easier for states to provide mental health information to the national background check system. On April 17, 2013, the U.S. Senate voted down an amended version of the gun background check proposed by President Obama. No assurance can be given as to whether some or all of these actions will be adopted, and if they are adopted, the effect they may have on our business, results of operations and financial condition.

At the federal level, bills have been introduced in Congress to establish, and to consider the feasibility of establishing, a nationwide database recording so-called “ballistic images” of ammunition fired from new firearms. Should such a mandatory database be established, the cost to the Company and its customers could be significant, depending on the type of firearms and ballistic information included in the database. Other bills have been introduced in Congress in the past several years that would restrict or prohibit the manufacture, transfer, importation or sale of certain calibers of handgun ammunition, impose a tax and import controls on bullets designed to penetrate bullet-proof vests, impose a special occupational tax and registration requirements on manufacturers of handgun ammunition, and increase the tax on handgun ammunition in certain calibers.

In addition to federal requirements, state and local laws and regulations may place additional restrictions on firearms and ammunition manufacture, sale, purchase, possession and use. Since the beginning of 2013, more than a dozen states and Washington, D.C. have enacted new laws aimed at strengthening restrictions against guns. For example, two states have established regulations requiring “ballistic imaging” registries of ammunition fired from new handguns. Within the past few years, at least four states introduced, or currently have, bills proposing requirements for “bullet serialization” for ammunition or “microstamping” capabilities for certain firearms. Some of these bills would apply to ammunition and firearms of the kind we produce. In addition, California passed semi-automatic pistol microstamping legislation that went into effect in May 2013. Several other states require firearms to be sold with internal or external locking mechanisms.

In contrast, many states have adopted laws to expand rights for gun owners. For example, on April 23, 2014, Georgia signed into law the “Safe Carry Protection Act”, which allows licensed gun owners to carry their firearms into public places, including certain bars, nightclubs, schools zones, churches and government buildings. No assurance can be given as to the effect such legislation may have on our business, results of operations and financial condition.

Although numerous jurisdictions presently have mandatory waiting periods for the sale of handguns (and some for the sale of long guns as well), there are currently few restrictive state or municipal regulations applicable to handgun ammunition. Our firearms are covered under several recently enacted state regulations requiring guns to be sold with internal or external locking mechanisms. Some states are considering mandating certain design features on safety grounds, most of which would be applicable only to handguns. There can be no assurance that the regulation of firearms and ammunition will not become more restrictive in the future, and more restrictive legislation in this area could have a material adverse effect on the business of the Company.

We are no longer a defendant in any lawsuits brought by municipalities against participants in the firearms industry. In addition, legislation has been enacted in approximately 34 states precluding such actions. Similar federal legislation, entitled “The Protection of Lawful Commerce in Arms Act” was signed into law by President Bush on October 26, 2005, after being passed by the U.S. Senate in August 2005 and by the House of Representatives in October 2005. However, the applicability of the law to various types of governmental and private lawsuits has been challenged. Any court decision restricting the applicability of the law could adversely impact the business of the Company.

We believe that existing federal and state regulation regarding firearms and ammunition has not had a material adverse effect on our sales of these products to date. However, there can be no assurance that federal, state, local or foreign regulation of firearms and/or ammunition will not become more restrictive in the future and that any such development would not have a material adverse effect on our business either directly or by placing additional burdens on those who distribute and sell our products or those consumers who purchase our products. In addition, future incidents of violence by individuals involving firearms could increase pressure to adopt some or all of the proposed regulations described above or spur additional regulatory proposals at the state and federal levels and call for the adoption of such proposals. Any such development might have a material adverse effect on our business, financial condition, results of operations or cash flows.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The primary market risks our financial instruments are exposed to are fluctuations in commodity prices, interest rates and foreign currency exchange rates. These risks are monitored as part of our risk management control system, and we have established policies and procedures governing our management of market risks. Negotiating favorable prices of raw materials, matching raw material purchases with our short and long-term forecasts and engaging in hedge activities with derivative instruments are some of the strategies we use to manage these market risks. Our activity with derivative instruments is used exclusively as a risk management tool.

Commodity Price Risk

We negotiate with our suppliers to obtain the most favorable prices for our raw materials. We also enter into derivative financial instruments for those commodities that experience greater price volatility. We typically enter into commodity option and swap contracts for our anticipated purchases of copper and lead. At September 28, 2014, our commodity derivative instruments had a notional amount of 33.5 million pounds and will settle over the next 25 months. The fair values of these open commodity contracts resulted in a \$2.7 million liability. Assuming a hypothetical 10% increase in copper and lead commodity prices which are currently hedged at September 28, 2014, our cost for those related purchases would result in a \$6.8 million loss. Due to the increase in the related hedging instruments' fair values, the hypothetical cost would be offset by \$4.4 million.

Interest Rate Risk

Our Term Loan B and ABL Revolver bear interest at variable rates using LIBOR and Alternate Base Rate interest rates and are susceptible to interest rate fluctuations. We occasionally enter into interest rate swap agreements to manage this risk. Approximately \$615.5 million of our total outstanding debt at September 28, 2014 bears interest at variable rates. Assuming no changes in the monthly average variable-rate debt levels of \$576.4 million for the nine months ended September 28, 2014, we estimate that a hypothetical change of 100 basis points in the LIBOR and Alternate Base Rate interest rates would increase interest expense by \$0.3 million for the nine months ended September 28, 2014.

Foreign Currency Exchange Risk

While most of our sales are domestic and denominated in U.S. Dollars, we frequently receive international orders with proceeds denominated in foreign currencies. Since we are exposed to foreign currency fluctuations, we occasionally enter into foreign currency swap agreements to mitigate this risk. At September 28, 2014, our foreign currency derivative instruments had a notional amount of \$26.4 million and will settle over the next 3 months. The fair values of our foreign currency swaps at September 28, 2014 resulted in a \$0.2 million asset. Assuming a hypothetical unfavorable 10% change in foreign currency exchange rates which are currently hedged at September 28, 2014, we would incur a \$2.5 million loss. Due to the increase in the related hedging instruments' fair values, the hypothetical cost would be offset by \$2.5 million.

Item 4. Legal Proceedings

Certain Indemnities

As of the closing of the Asset Purchase in December 1993 under the Purchase Agreement, Remington assumed:

- a number of specified liabilities, including certain trade payables and contractual obligations of DuPont and its affiliates;
- limited financial responsibility for specified product liability claims relating to disclosed occurrences arising prior to the Asset Purchase;
- limited financial responsibility for environmental claims relating to the operation of the Remington business prior to the Asset Purchase; and
- liabilities for product liability claims relating to occurrences after the Asset Purchase, except for claims involving products discontinued at the time of closing.

All other liabilities relating to or arising out of the operation of the Remington business prior to the Asset Purchase from DuPont are excluded liabilities (“Excluded Liabilities”), which DuPont and its affiliates retained. DuPont and its affiliates are required to indemnify us in respect of the Excluded Liabilities, which include, among other liabilities:

- liability in excess of our limited financial responsibility for environmental claims and disclosed product liability claims relating to pre-closing occurrences;
- liability for product liability litigation related to discontinued products; and
- certain tax liabilities, employee and retiree compensation and benefit liabilities and intercompany accounts payable which do not represent trade accounts payable.

DuPont and its affiliates’ overall liability in respect of their representations, covenants and the Excluded Liabilities under the Purchase Agreement, excluding environmental liabilities and product liability matters relating to events occurring prior to the purchase but not disclosed, or relating to discontinued products, is limited to \$324.8 million. With a few exceptions, DuPont and its affiliates’ representations under the Purchase Agreement have expired. We made claims for indemnification involving product liability issues prior to such expiration. See “—Product Related Litigation.”

In addition, DuPont and its affiliates agreed in 1996 to indemnify Remington against a portion of certain product liability costs involving various shotguns manufactured prior to 1995 and arising from occurrences on or prior to November 30, 1999. These indemnification obligations of DuPont and its affiliates relating to product liability and environmental matters (subject to a limited exception) are not subject to any survival period limitation, deductible or other dollar threshold or cap. We and DuPont and its affiliates are also party to separate agreements setting forth agreed procedures for the management and disposition of environmental and product liability claims and proceedings relating to the operation or ownership of the Remington business prior to the Asset Purchase, and are currently engaged in the joint defense of certain product liability claims and proceedings. See “—Product Related Litigation.”

Additionally, as part of our recent acquisitions, the Company has received customary product liability, environmental, and legal indemnifications.

Product Related Litigation

We maintain insurance coverage for product liability claims subject to certain self-insured retentions on a per-occurrence basis for personal injury or property damage with respect to Remington (relating to occurrences arising after the Asset Purchase), Marlin, Bushmaster, DPMS and our other brands and products. We believe that our current product liability insurance coverage for personal injury and property damage is adequate for our needs. Based in part on the nature of our products, there can be no assurance that we will be able to obtain adequate product liability insurance coverage upon the expiration of the current policy. Our current product liability insurance policy expires December 1, 2014.

As a result of contractual arrangements, we manage the joint defense of product liability litigation involving *Remington* brand firearms and our ammunition products for both Remington and DuPont and its affiliates. As of September 28, 2014, approximately 36 individual bodily injury cases and claims were pending relating to firearms and our ammunitions products, primarily alleging defective product design, defective manufacture and/or failure to provide adequate warnings; some of these cases seek punitive as well as compensatory damages. We have previously disposed of a number of other cases involving post-Asset Purchase occurrences involving *Remington* brand firearms and our ammunition products by settlement. The 36 pending individual cases and claims involve pre- and post-Asset Purchase occurrences for which we or DuPont bear responsibility under the Purchase Agreement.

The relief sought in individual product liability cases includes compensatory and, in some cases, punitive damages. Certain of the claims and cases seek unspecified compensatory and/or punitive damages. In others, compensatory damages sought may range from less than \$50,000 to in excess of \$1 million and punitive damages sought may exceed \$1 million.

Of the individual post-Asset Purchase bodily injury cases and claims pending as of September 28, 2014, plaintiffs and claimants seek either compensatory and/or punitive damages in unspecified amounts or in amounts within these general ranges. In our experience, initial demands do not generally bear a reasonable relationship to the facts and circumstances of a particular matter, and in any event, are typically reduced significantly as a case proceeds. We believe that our accruals for product liability cases and claims, as described below, are a better quantitative measure of the cost of product liability cases and claims.

In addition, we have two class action cases pending in Missouri and Washington relating to breach of warranty claims concerning certain of our firearms products. These actions involve claims of economic harm to gun owners due to an alleged defect. Although the Company believes these cases are without merit, the Company agreed to participate in out-of-court mediation to explore whether a satisfactory resolution could be achieved. As a result of the mediation, and in an effort to resolve the litigation in its entirety, the Company entered into a Memorandum of Understanding to settle the economic loss claims on a nationwide basis. The parties are presently drafting a comprehensive settlement agreement, which will be submitted to the court for approval in December 2014. Final court approval of the proposed settlement is not expected until 2015.

At September 28, 2014, our accrual for product liability and other product related cases and claims was approximately \$17.7 million. The amount of our accrual for these liability cases and claims is based upon estimates developed as follows. We establish reserves for anticipated defense and disposition costs for those pending cases and claims for which we are financially responsible. Based on those estimates and an actuarial analysis of actual defense and disposition costs incurred by us with respect to product liability cases and claims in recent years, we determine the estimated defense and disposition costs for unasserted product liability cases and claims. We combine the estimated defense and disposition costs for both pending cases and threatened but unasserted claims to determine the amount of our accrual for product liability and product related cases and claims. It is reasonably possible additional experience could result in further increases or decreases in the period in which such information is made available. We believe that our accruals for losses relating to such cases and claims are adequate. Our accruals for losses relating to product liability and product related cases and claims include accruals for all probable losses the amount of which can be reasonably estimated. Based on the relevant circumstances (including, with respect to Remington-based claims, the current availability of insurance for personal injury and property damage with respect to cases and claims involving occurrences arising after the Asset Purchase, our accruals for the uninsured costs of such cases and claims and DuPont's agreement to be responsible for a portion of certain post-Asset Purchase product liability costs, as well as the type of firearms products that we make), we do not believe with respect to

product liability and product related cases and claims that any probable loss exceeding amounts already recognized through our accruals has been incurred.

Because our assumption of financial responsibility for certain Remington product liability cases and claims involving pre-Asset Purchase occurrences was limited to an amount that has now been fully paid, with DuPont and its affiliates retaining liability in excess of that amount and indemnifying us in respect of such liabilities, and because of our accruals with respect to such cases and claims, we believe that Remington product liability cases and claims involving occurrences arising prior to the Asset Purchase are not likely to have a material adverse effect upon our financial condition, results of operations or cash flows, nor do we believe at this time that there is an estimated range of reasonably possible additional losses. Moreover, although it is difficult to forecast the outcome of litigation, we do not believe, in light of relevant circumstances (including with respect to Remington-based claims, the current availability of insurance for personal injury and property damage with respect to cases and claims involving occurrences arising after the Asset Purchase, our accruals for the uninsured costs of such cases and claims and the agreement of DuPont and its affiliates to be responsible for a portion of certain post-Asset Purchase product liability costs, as well as the type of firearms products that we make), that the outcome of all pending product liability cases and class action cases and claims will be likely to have a material adverse effect upon our financial condition, results of operations or cash flows. Nonetheless, in part because the nature and extent of liability based on the manufacture and/or sale of allegedly defective products (particularly as to firearms and ammunition) is uncertain, there can be no assurance that our resources will be adequate to cover pending and future product liability or class action cases or claims, in the aggregate, or that a material adverse effect upon our financial condition, results of operations or cash flows will not result there from. Because of the nature of our products, we anticipate that we will continue to be involved in product liability and product related litigation in the future. Because of the potential nature of injuries relating to firearms and ammunition, certain public perceptions of our products, and recent efforts to expand liability of manufacturers of firearms and ammunition, product liability cases and claims, as well as class action cases and claims, and insurance costs associated with such cases and claims, may cause us to incur material costs.

Other Litigation

We are involved in lawsuits, claims, investigations and proceedings, including commercial, environmental, trade mark, trade dress and employment matters, which arise in the ordinary course of business. We do not expect that the ultimate costs to resolve these matters will have a material adverse effect on our financial position, results of operations or cash flows.

Item 5. Risk Factors

There have been no other material changes to our Risk Factors from those disclosed in Item 1A of our 2013 Annual Report and Item 5 of our Quarterly Report for the period ended June 29, 2014.
